ESTABLISHED 1833. FORT WAYNE, IND., FRIDAY, MARCH 7, 1902. PRICE TWO CENTS

MAKES IT THE LAW

PRESIDENT SIGNS CENSUS BUREAU BILL.

UNDER CIVIL SERVICE LAW

BUREAU NOW BECOMES A PERMANENT INSTITUTION.

PRESIDENT SENDS A LETTER

THE DAY'S PROCEEDINGS IN CONGRESS.

Washington, March 7.—The president has signed the bill creating a permanent census bureau.

The president has sent the following letter to the secretary of the interior:

"White House, Washington, March 6, 1902.—Sir: I have signed the act providing for a permanent census bureau. Section 2 of this act provides that the work pertaining to the twelfth census shall be carried on by the census office under the existing organization until the first day of July, when the permanent census office herein provided for shall be organized by the director of the census. Section 5 provides that with your approval the director of the census may appoint into the permanent census force in two ways: In the first place, from the present employes of the census office, and in the second place, all new appointments to be made in accordance with the civil service law. After any of the present employes of the census office have been appointed upon the permanent force they become part of the classified service.

"I have been over these two sections very carefully with the attorney general and their construction seems to be perfectly clear. You will please inform the director of the census that this office will continue to be administered as it has been administered until the first of July. On that day he will, with your permission, appoint such members of the present force under him as will constitute the permanent census force, appointing only so many as are to be permanently employed. After that date all appointments will be made under the regulations of the civil service act.

"Very truly yours,
"Theodore Roosevelt.

"Hon. E. A. Hitchcock, Secretary of the Interior."

IN THE SENATE.

Washington, March 7.—Soon after the senate convened today a joint resolution authorizing the president of the United States to invite the government of Canada to join in the formation of an international commission to examine and report upon the diversion of the waters that are boundaries of the two countries was reported favorably from the committee on commerce.

Mr. Hoar (of Massachusetts) urged that the measure ought to be considered by the foreign relations committee, as it opened "a very important and a very delicate question," involving diplomatic procedure. On his motion it was referred to the committee on foreign relations.

A resolution offered by Mr. Harris (of Kansas) directing the committee on Indian affairs to investigate the matter of the removal of certain Creek Indians from lands assigned to them and to report by bill, was adopted.

The senate agreed to a conference with the house upon the bill providing for the redemption of certain internal revenue stamps, and Messrs. Aldrich (of Rhode Island), Platt (of Connecticut) and Teller (of Colorado) were named as conferees on the part of the senate.

On motion of Mr. Hale (of Maine) the senate then began the consideration of the diplomatic and consular appropriation bill.

The bill was read. It carries in round figures $2,000,000 in appropriations.

Mr. Bacon, of Georgia, offered an amendment providing that the student interpreters employed in the legations and consulates in China should be selected in a non-partisan manner and that they should agree to remain in the service for ten years. The amendment was agreed to. The bill as amended then was passed.

The senate resumed consideration of the bill providing for the protection of the president of the United States.

Continuing his speech begun yesterday, Mr. Bacon contended that the enactment of the bill in its present form would be an extension of treason as defined by the authorities. He quoted various writers on law and the constitution in support of his point.

Merely because the crime named in the pending bill was not designed as treason by the penalty provided and the means resorted to to apply the penalty to the criminal. He indicated his belief that such a provision was unconstitutional, maintaining that treason had been defined in the constitution only after long and careful debate, during which every possible contingency was considered.

At 2 o'clock the unfinished business—the subsidy bill—was laid aside informally, no senator being prepared to discuss it, and the senate proceeded with the consideration of the bill for the protection of the president.

IN THE HOUSE.

Washington, March 7.—Some routine business was transacted at the opening of the session of the house today. Bills were passed as follows:

To grant to the Georgia and Alabama terminal company the right to construct a bridge across the Savannah river; to extend the time for the construction of a bridge across the Mississippi river at Burlington, Iowa; to ratify the act of the legislative assembly of Arizona providing for an exhibit at the St. Louis exposition; to print 99,000 copies of the special report on the diseases of cattle and 200,000 copies of the report on the diseases of the horse, two-thirds for the use of the house and one-third for the use of the senate, and for the purchase or construction of a launch for the custom service at Astoria, Oregon.

The debate upon the bill to classify the rural free delivery and to place the carriers under the contract system then was resumed, an arrangement having been reached by which general debate upon the bill should close with the termination of the session tomorrow.

MORE DELAY ON CUBA.

Washington, March 7.—Further delay. This was the result last night of the third caucus on Cuba held by the house republicans. It was caused by Speaker Henderson.

The sugar beet men, confident of their control, by motion of Mr. Tawney sought to have a time set for taking a vote. The speaker, who was in the lobby, hastily entered the hall and made a brief speech in which he urged patience and a full opportunity for all to be heard. Mr. Payne, chairman of the ways and means committee, then moved that the conference adjourn until Tuesday night, and in deference to the wishes of the speaker the motion was adopted.

The caucus, which was attended by 125 members, was full of startling features. Made bold by their feeling of strength, the sugar beet men fired questions at the speaker, selecting Mr. Dalzell, of Pennsylvania, who made the principal argument of the evening, as their favorite target. His colleague, Representative Mason, of Pennsylvania, bluntly inquired whether Mr. Dalzell would advocate a 20 per cent. reduction in duties if the principal products of Cuba were iron and steel. Mr. Dalzell would not answer. Then a Michigan representative asked whether he would support the ways and means proposition, for which he was arguing so diligently, if he came from Michigan or any state that produced beet sugar. Mr. Dalzell frankly admitted that he would not.

BODIES TAKEN FROM MINE

FIVE VICTIMS OF EXPLOSION AT MONONGAHELA.

Were Burned and Bruised Almost Beyond Recognition—Cause of Explosion Unknown.

Monongahela, Pa., March 7.—The five bodies of the victims of the fire-damp explosion at Catsburg mine yesterday were recovered shortly after midnight and brought out to the main entrance. They were already dead when found by one of the rescuers and were blackened, burned and bruised almost beyond recognition.

Inspector Henry Louttit stated, after coming out of the mine, that they had found little or no trace of gas, but had made no tests. He said there was no fire in the main entry, but could not tell the conditions in the other parts of the mine.

Mr. Louttit also said that the mine had not been declared safe by him and that the party that had gone in had been sent in to see if they could extinguish the fire. He refused to advance any theory as to how the explosion occurred.

MANY ARE KILLED

FRIGHTFUL WRECK ON RAILWAY IN TEXAS.

REPORT THIRTY-EIGHT DEAD

OTHERS OF NUMBER UNKNOWN STILL IN DEBRIS.

TRAIN DESTROYED BY FIRE

ONLY MEAGRE DETAILS OF THE CATASTROPHE.

Elpaso, Texas, March 7.—A westbound passenger train on the Galveston, Harrisburg and San Antonio railroad was wrecked three miles west of Maxson, on the Elpaso and Sanderson division at 3 o'clock this morning. Meager details have been received, but it is reported that up to 10 o'clock 15 unindentified dead bodies have been taken from the wreck and also the bodies of Engineer Mast, of St. Louis, and Fireman Harry Bertsch, of Elpaso. Express Messenger Adams and several clerks were injured. Nine coaches and a baggage car were burned. Only one coach in the train escaped destruction and this was occupied by forty New York capitalists. It is believed the train, while running at rapid speed, was hurled into the ditch by a broken rail.

A special train left Elpaso at 5 o'clock bearing Superintendent Martin and a corps of physicians. Wrecking outfits have been sent from Alpine, Marfa and Marathon, the nearest stations, to the wreck. It is reported that many of the dead were pinioned in the debris and were burned to death.

LATER REPORT WORSE.

Later reports are to the effect that thirty-eight persons were killed and as many more injured. The cars immediately began burning and the station agent at Tabor, seven miles away, saw the reflection of the flames and went to the scene as fast as a handcar would take him. Passengers who were able to get out were running hither and thither, frantic in their efforts to rescue those who were in the burning cars. It is thought that few passengers in the two day coaches were saved, as both cars were piled on top of the baggage and express cars and were the first to catch fire. The Pullman and tourist sleeping car passengers were rescued from the flames, and if reports are true, none was killed on those cars, although several are reported injured.

SIXTEEN KNOWN DEAD.

A still later report says there are sixteen known dead and many injured. Many of the passengers were on their way to California. A few were from here.

The enginemen went down with their engine, which was overturned and covered with the debris of the splintered coaches. The first coach was filled with immigrants and nearly all of these perished. Seven other cars were overturned, but a private car attached to the rear end, occupied by a New York capitalist named Ryan, did not leave the track. Conductor Stockwell, who reported the accident, walked seven miles to a telegraph office to warn an approaching train and send the news of the disaster to the superintendent's office here. The wreck occurred at a remote point 200 miles east of this place in the rugged mountains. The train jumped the track on a reverse curve which skirts a ravine. It had just descended a grade two miles in length and was running at a high rate of speed when it struck the curve. Day had not broken and most of the passengers were still asleep.

ANOTHER ACCOUNT.

San Antonio, Texas., March 7.—Tourist passenger train (No. 9, on the Southern Pacific, which left San Antonio at 9:15 o'clock March 6 for California, struck a curve of ten degrees at Maxon, twelve miles west of Sanderson, at 3:30 o'clock this morning. The entire train except one private car was derailed and burned. There was one tourist car from Cincinnati, one from Washington, one from St. Louis and a Pullman from New Orleans besides two passenger coaches all loaded with passengers.

Twelve persons, including engineer and fireman and train boy, were killed and thirty-three wounded. It is impossible to obtain a list so far. The train was running at usual speed.

THE CELTIC AT JAFFA.

Jerusalem, March 7.—The White Star line steamer Celtic, having on board 800 American tourists, destined for this city, arrived at Jaffa yesterday afternoon. One hundred Free Masons, representing every grand lodge in North America, will hold a masonic meeting at King Solomon's quarries under the auspices of the royal Solomon mother lodge, of Jerusalem.

HAVE PASSED HONLULU.

Dr. and Mrs. J. A. McAlister, who sailed from San Francisco on the transport Grant for the orient, have passed Honlulu and are now far westward on their journey. Mrs. McAlister, who is a daughter of A. A. Purman, of this city, has written her father from Honolulu announcing their safe arrival there after a very rough voyage, and during their two days' stay there Dr. and Mrs. McAlister were entertained by Mrs. Thayer, of this city, who is the guest of her son at Honolulu. Dr. McAlister will touch at Yokohoma and at Hong Kong before reaching Manila, where he enters service as a dentist surgeon in the United States army.

MR. SINEL MAKES BAD GUESS

IDENTIFIES CUMBERLAND VICTIM AS JAMES DAVIDSON,

Who Was Killed Near Fort Wayne Sunday Morning — Case of Mistaken Identity at Indianapolis.

James Davidson, killed Sunday morning by a Pennsylvania train a short distance west of this city, is buried at Lindenwood cemetery, yet a dead body now lying at Indianapolis has been identified as that of the same James Davidson. Inasmuch as a sister and a number of acquaintances of the man killed near this city were present at the funeral and positively identified the remains, it is evident that there is a badly tangled case of mistaken identity at Indianapolis. The Indianapolis story is given in the following telegram from that city:

"Indianapolis, March 7.—The body of the man found hanging to a tree at Cumberland, near this city, last Friday, has been identified as that of James Davidson, a farm hand employed on the farm of Patrick Ambrose, eight miles from Fort Wayne. The identification was made last night by Joseph Sinel, night clerk at the O'Brien's restaurant here, with whom Davidson worked for a time and who is a relative of neighbors of Ambrose. Davidson, he says, was somewhat feebleminded and has a brother serving a term in the penitentiary at Michigan City for killing his uncle."

NEW BORN BABE WAS DEAD

MOTHER LAY UNCONSCIOUS ON THE FLOOR.

A Peculiar Case Comes to Light on West Main Street—Coroner is Investigating.

Coroner Barnett is investigating a case that has some aspects of infanticide. Last night a woman who is known as Lucy Miller, employed as a domestic in a West Wain street family, was found on the floor of her room unconscious and in a slop jar was discovered the dead body of a new born female babe, fully developed.

Dr. B. Van Sweringan was called to attend the young woman and had her removed to Hope hospital, where she is now receiving treatment, with prospect of recovery.

Dr. Barnett took charge of the remains of the dead babe and will determine whether death occurred before or after birth, and if the latter, by what means. It is his belief at present that the child was alive when born.

The girl is aged about 20 years and came here from Decatur. It is not known whether she is married.

ANNUAL MEETING MONDAY.

The call has been issued for the annual meeting of the stockholders of the National Telephone and Telegraph company, which will be held at the rooms of the Commercial club next Monday evening at 7:30. The business to be transacted consists of hearing reports for the past year and the election of directors.

The Athena Thimble club will be entertained Thursday, March 13, by Mrs. Lacy, at her home, 191 Montgomery street.

THE ROOT OF SIN

EVANGELIST HILTON SAYS IT IS UNBELIEF.

PREACHES STRONG SERMON

GOD SHUTS UP ALL SINNERS IN UNBELIEF.

THAT HE MAY HAVE MERCY

LARGE ATTENDANCE FILLS BETHANY CHURCH.

Evangelist George A. Hilton, of New York city, opened a series of gospel services at Bethany Presbyterian church last evening which will continue ten days. Every seat in the church was occupied and there is every prospect of a most successful period of religious meetings.

Major Hilton has been in the evangelistic field for a number of years and has been eminently successful in his chosen work. As a lecturer Major Hilton is unexcelled. He is forcible and eloquent and intersperses his discourse with anecdotes graphically illustrative of the points he desires to make. His earnestness, and ability to say the right thing in the right way, makes him a power in the pulpit. He puts occasional dashes of humor into his talk, not with the idea of amusing his audience, but to "nail a fact," as he expresses it.

Evangelist George A. Hilton, of New York.

Major Hilton does not attempt the sensational and does not seek to stir up in his hearers the kind of religious enthusiasm that soon settles down, leaving one more in doubt than ever. He appeals to the conscience, and makes it easy for an honest man to accept the verdict conscience gives. His subject last evening was "Sin" and he spoke in part as follows:

"There is a belief among many that sin is graduated. We think that the man who murders is the worst criminal, perhaps the incendiary is next, then the burglar and so on down the list. If we go to a penitentiary we find men shut up together in one building for many different crimes for which various penalties are provided; and so we classify them. And God classifies sinners in the same way; He shuts them all up together in unbelief. And why unbelief? Because unbelief is the source of all sin. You or I wouldn't want to walk down street with a thief or a murderer, we would shrink from that kind of company.

"If you have committed no sin against the laws of the city or state you need be in no fear of punishment. Therefore, if you have not transgressed the laws of God, you need have no fear of the penalties provided for transgression. The laws are not intended to make man good. They are made to guide him, and he knows that if he breaks them he will have to suffer the penalties provided.

"A man says, 'I am not a murderer, I am a thief, and should not have to suffer the same penalty that a murderer should.' That is not the question. The point is, are we saved from the sin that made other men worse criminals than we are?

GOD'S MERCY NOT CLASSIFIED.

"God has not classified mercy, therefore he shuts up all sinners together in unbelief that He may have mercy on them. One man may murder and another man may steal; the cause of both crimes is a lack of belief in God's teachings, but God classifies them under but one head and metes out punishment for the root sin, unbelief.

"A friend of mine desired to be appointed to the extra police force in Washington during an inauguration. He had all the qualifications of a good officer, but he was only five feet seven and one-half inches tall, while the law required that he be five feet eight inches. 'I am sorry I cannot appoint you,' said the chief, 'but you fall short of the requirements of the law.' And so it is in everyday life; a man may possess all the qualities of a good Christian, but this unbelief puts him in the same class in God's sight as the worst murderer in the world. The Bible is like a looking glass. By looking into it we are able to see if we are in need of cleansing. We cannot clean our bodies with a mirror nor our souls with the Bible, but in both cases we can see how it should be done.

"As long as a man lives in unbelief, he draws the wages of sin, which is death. In a Massachusetts town not long ago two men broke into the bank, murdered the watchman and carried off a large sum of money. They stole a horse and sleigh and drove until the animal dropped dead from exhaustion. Then they abandoned the rig and took to the woods, carrying their plunder on their backs. They became lost and as the night was bitterly cold both were badly frozen and they were found the next morning by detectives, who had tracked them in the snow. They were taken to a hospital, where amputation was found necessary in both cases, and after suffering for weeks they were healed. Were they turned loose because they had suffered? No. The laws of Massachusetts required that they pay the penalty of murder and they were tried, convicted and hanged.

A FORCEFUL PARALLEL.

"A man was being tried in a court in New York for a crime that meant life imprisonment or a fine that he could never pay. The evidence was all against him, not one extenuating circumstance could be found. In all the crowded court room not one face betrayed the slightest sympathy. The prisoner knew that in the minds of the spectators and the jury he was already convicted and sentenced. He had sat all through the trial with his head bowed on his hands and now as the judge was about to charge the jury the prisoner looked into his face and started, recognizing in that official a college chum of his younger days. A ray of hope lit up the prisoner's face for a moment, but for a voice that seemed unusually harsh the court read the charge and without leaving their seats the jury returned a verdict of guilty. Again the prisoner's head sank and he heard his sentence, imprisonment for life. In a few moments he felt a hand on his shoulder and looking up he saw the judge, his college friend of former days. 'My friend,' he said, 'God has been pleased to prosper me and although the sum necessary to set you free is nearly all I possess, I shall pay your fine.' And he did.

"Christ died to save us. He paid the penalty for our sins on Calvary and all He asks is that we have faith in Him that we may have eternal life through Him. 'For God has shut up all sinners in unbelief that He may have mercy on their souls.'"

This evening at 7:30 Evangelist Hilton will use as his subject, "The Great Sorrow." Meetings are held at 2:30 and 7:30 p. m. and special music is rendered by a chorus choir under the direction of Prof. Miles.

PROFIT AND LOSS.

The attendance at the special gospel service at Christ's Lutheran church last night was an increase upon any of the other evenings, which were all above expectation. The audience was greatly interested in the able sermon on "Profit and Loss," by Rev. Schrock. The great contrast between this world and the soul was set forth in strong and impressive terms and the effect upon the audience was evident. A feature of more than usual attraction was the music furnished by the Emerson quartet, which consisted of three fine selections, rendered in a most pleasing manner.

Rev. Schrock will preach his last sermon tonight on the topic, "The Word of God Despises." He has also consented to sing a tenor solo.

TOMBAUGH—TURFLINGER.

Miss Emma A. Turflinger and William Tombaugh were united in marriage yesterday afternoon by and at the home of Rev. D. T. Williams, pastor of the South Congregational church. Mr. and Mrs. Tombaugh are spending their honeymoon in Chicago, and on their return will be at home at 724 Home avenue.

HE HAD APPENDICITIS.

Willie Miller, a Cincinnati student at Concordia college, who had been suffering for several days from appendicitis, was operated upon this morning by Dr. H. A. Duemling and Dr. E. A. Crull. The patient is at Concordia hospital.

BIG FIRE LOSS.

Hudson, N. Y., March 7.—Fire today burned the buildings and stock of Dosenheim & Co., dry goods dealers; W. Van Tassel, drugs; B. Grieve' Sons, Furniture; Selden & Co., dry goods, and Falk, men's furnishings. Loss, $200,000.

Miss Hattie Aldrich, of Huntington, is visiting in the city.

A LINER IS LOST

STEAMER WAESLAND IS SUNK NEAR HOLYHEAD, WALES.

RAMMED BY THE HERMONIDES

ALL ON BOARD WERE RESCUED BUT TWO.

A THRILLING EXPERIENCE

OFFICER OF THE WAESLAND TELLS GRAPHIC STORY.

Liverpool, March 7.—The British steamer Hormonides, from Brazilian ports, which was in collision with and sank the Red Star line steamer Waesland, Wednesday night, about forty miles southwest of Holyhead, and which was towed to this port, early this morning, by the tugs sent in search of her, has a great hole in her bows.

One of the rescued passengers of the Waesland, who was on board the Harmonides, said the Waesland was run into amidships, in a fog, at midnight, and sank half an hour afterwards, her boilers bursting as she went down. The report that only two of the passengers of the Waesland, a man and a child, lost their lives, appears to be confirmed. In addition, one woman was injured. Some of the Waesland's boats were in the water a couple of hours before, owing to the fog, they could get alongside the Harmonides.

FACES TOLD OF ORDEAL.

When the Harmonides arrived here her decks were crowded with half-clad passengers of the Waesland, whose pale and haggard faces told [illegible] experiences. So hurried was the departure of the passengers from the sinking ship that in some cases they were only covered by blankets and handkerchiefs were their only head-gear.

When the disaster occurred Wednesday night the two vessels were steamingly slowly off the coast of the Island of Anglesey. The Harmonides crashed head-on into the Waesland, and backed away, but once again struck the then sinking ship, making a great gap in her side. Though the sea was perfectly smooth, the denseness of the fog added to the terrors of the passengers of the Waesland. The women rushed on deck screaming, but were soon reassured by the officers. The boats were quickly lowered, but the operation resulted in two fatalities. The end of one of the life boats slipped from its davit and precipitated the occupants of the boat into the sea. A steerage passenger, Edward Dangerfield, of Kansas, struck his head against the boat's fittings and was instantly killed, and Elsie Emmett, 12 years old, the daughter of the Rev. A. Emmett, was drowned. The other persons who were in the boat were picked up.

The behavior of the passengers, many of whom were Scandinavian emigrants, was exemplary. Precedence was given to the women and children.

BOILERS EXPLODED.

As the last boat was leaving the fast sinking ship, whose decks were already awash, an explosion announced that her boilers had burst, and forty minutes after the first impact the Waesland gave a mighty lurch and disappeared beneath the waves, sinking about mid-way between Holyhead and Tuskar light. Nothing was saved except what the passengers and crew wore. The boats containing the passengers were for a time separated, owing to the fog, but eventually they all reached the sides of the Harmonides, and the survivors were taken on board that vessel, where everything possible was done for their comfort. A pilot boat met the Harmonides off the Island of Anglesey and communicated the news of the disaster to persons ashore, with the result that tugs were dispatched to search for the Harmonides and accompanied the steamer to this port. Here the passengers were landed and comfortably housed. They will proceed to Philadelphia Wednesday on board the Red Star line steamer, Noordland.

The surviving passengers, as a rule, escaped with only a few slight bruises.

The Harmonides' stem and bow plates were so torn and twisted that it appeared marvellous that she escaped sinking. She also has a deep rent in her port side.

OFFICER'S GRAPHIC STORY.

An officer of the Waesland, in an interview, gave a graphic description of the loss of the steamer. He said:

"I saw the whole affair. I was late in turning in, as the night was foggy and the [illegible]

PRINCE IN ALBANY

HENRY VISITS CAPITAL OF THE EMPIRE STATE.

RECEIVED BY THE GOVERNOR

WARM RECEPTION BY STATE LEGISLATURE.

IS A GUEST OF WEST POINT

MILITARY ACADEMY RECEIVES SAILOR PRINCE.

Albany, N. Y., March 7.—It was 12:25 o'clock when Prince Henry boarded his train at Boston this morning and 2:05 o'clock when the train departed for Albany. The prince retired at once. There were no delays anywhere en route and the special was kept several minutes ahead of the schedule arranged for it. There had been a very heavy fall of snow in Massachusetts, but there were no drifts and the tracks were clear. The prince arose at 7:30 o'clock and was at breakfast when his train entered the railroad yards at Albany. He wanted to leave the table at once, but as the train was more than twenty minutes ahead of time, a stop was made in the yards, where he finished his meal. The prince was very tired when the Boston reception came to an end, but he seemed quite refreshed when he arose this morning.

It was 8:30 when the special reached the union depot. The depot grounds had been cleared and the police formed a cordon around the car Columbia. Mayor Gaus and George Sard, chairman of the reception committe, were in waiting and were introduced to the prince at once. Ambassador Von Holleben presenting them.

GOVERNOR WAS LATE.

Governor Odell was late in arriving, through some misunderstanding as to the time, and the prince and his party waited for him. He arrived about ten minutes later and in behalf of the state bade the prince welcome. The prince was then shown to a carriage, around which formed the smartly uniformed riders of troop B. When the party had all been placed in carriages a start was made for the city. Broadway was filled with people, and as the carriage bearing the prince emerged from the depot driveway there was a resounding cheer.

Stationed at various points along the route were companies of the New York state militia.

Hundreds of men had been at work all yesterday clearing away the snow from the streets through which the procession passed and they were in good condition. The buildings along the route presented a brilliant appearance, being tastefully decorated with the American and German colors interwined. German and American colors were draped over the front of the city hall and the mayor's office, to which the prince was escorted immediately upon arriving.

Enormous crowds lined the streets and taxed the patience of both the police and national guardsmen in keeping them back on the sidewalks.

Admission to both the city hall and capitol was by card, but poor judgment had been exercised in issuing them and in both places the crush was terrific and many of those entitled to admission were forced back by the guards.

THE FORMAL WELCOME.

When the party entered the city hall they were escorted to the mayor's office, and Mayor Charles H. Gaus extended the formal welcome to the city. He said:

"Your Royal Highness: I have the honor on behalf of the city officials and the common council of Albany to welcome you to the historic and hospitable capital city of the empire state. I assure you, sir, that the city of Albany feels deeply honored in having this opportunity to add your name to the long list of the personal representatives of the heads of other governments that have paid this city a visit. I welcome you as the personal representative of your brother, William II., the German emperor, who is the head of a people who are on friendly terms with our country.

"We have here in Albany about 25,000 German-Americans. They are of that class of men whom you met in the middle west—men who, at the time we were threatened with dismemberment, loyally espoused the cause of the union of our states. I also am happy to extend the hand of welcome to you, because as a man you have endeared yourself to all the American people that you have met.

'As a souvenir of your visit among us, I have prepared an illustrated parchment, granting you the freedom of the city, enclosed in its silver case, which I take pleasure in presenting.

"While it is not my purpose to detain you and your party with any extended remarks, knowing that you came to Albany to see and not so much to hear, still I want to call your attention to one fact, which I think will interest you. When you came out of the railroad station you set foot on Steuben street, which was named after the former aide-de-camp of Frederick, the Great, who came to America to put our revolutionary army in proper shape and who did it, thereby making the revolutionary war a success. As you already know, Von Steuben, at our General Washington's suggestion, was made inspector general, with the rank of major general."

The prince thanked the mayor for the gift and said that he would greatly prize it. The party was then shown the original Dongan charter, granted by Governor Dongan 210 years ago. A short time was devoted to introductions and then carriages were re-entered and the party proceeded to the capitol.

VISIT TO THE CAPITOL.

Prince Henry and his escort reached the capitol at 9:20 o'clock. They were met at the eastern entrance by Adjutant General Henry and escorted to the executive chamber, where Governor Odell and his staff were waiting to receive the royal visitor.

The reception in the executive chamber was thoroughly informal. Governor Odell had already met the prince at the train, and there was no necessity for introductions. The prince entered with General Henry, and, stepping forward, grasped the hand of Governor Odell. He was introduced by the governor to Mrs. B. B. Odell, Mrs. Henry, Mrs. Hall, of Lansamont; Hiram H. Odell, the governor's brother, and Rt. Rev. William Croswell Doane. Introductions then followed to the members of the governor's staff and the senatorial committee.

There were no set speeches. The distinguished visitor chatted with the governor for a few minutes, expressing great admiration for the beauty of the capitol and particularly of the executive chamber, which he said was one of the most magnificent in the world.

SEES WASHINGTON'S SWORDS.

The sword presented by Frederick the Great to George Washington had been taken from the state library and placed on a table in the executive chamber. It was taken out for the prince to examine. He said that it gave him extreme pleasure to see and handle it and that it should ever be guarded as the gift of one great general to another.

The prince took leave of the governor and his staff and the other ladies and gentlemen present and was escorted to the senate chamber.

The senate galleries were thronged in anticipation of the visit of Prince Henry. It was 9:40 o'clock when Clerk Whipple announced the royal visitor.

Prince Henry entered with Senator Horace White, of Syracuse, nephew of Ambassador White, the American representative in the German empire. Senator White was chairman of the reception committee of five senators, who followed with the prince's retinue. Arriving in front of the senate desk Prince Henry and his escort remained standing while Lieutenant Governor Woodruff descended from his rostrum and greeted his royal highness.

A CORDIAL WELCOME.

He then escorted the prince to his desk and formally welcomed him in these words:

"It is a high official privilege and a very great personal pleasure to present the senate of the foremost commonwealth of the American republic to his highness, Prince Henry of Prussia, whose diplomacy and cordial good fellowship have accomplished a peaceful conquest of the United States equal to any of the historic victories won by the sword of the house of Hohenzollern in the lands beyond the seas."

Prince Henry was given a warm ovation, the senators rising and clapping their hands for half a minute. When the applause had ceased Prince Henry, smiling and seeming very happy with his reception, said:

"I wish to thank you most heartily for the kind reception met with here. It is one of the many acts of kindness which I have received during my stay in the United States at the hands of your countrymen, and which I am not likely to forget."

The assembly committee were then presented to the prince and escorted him from the senate chamber.

IN ASSEMBLY CHAMBER.

Prince Henry remained but three minutes and a half in the assembly chamber. At 9:42 Clerk Baxter, standing near the south corridor, announced in a loud voice:

"His royal highness, Prince Henry of Prussia."

Immediately Speaker Nixon brought his gavel down heavily and everybody in the chamber arose. The prince, with Assemblyman Allds at his right and followed by his entire suite and the assembly reception committee, entered. The prince was escorted to the speaker's desk. Speaker Nixon, bowing low to the distinguished guest, said:

"Your Royal Highness: It is my privilege and pleasure on the part of the assembly of the empire state to extend to you a most cordial and kindly greeting. Your visit affords us an especial pleasure and it indicates to us in a most generous manner the feeling of good will and friendship existing upon the part of your nation toward ours. That this same feeling of friendship exists upon our part you can have no better evidence than is indicated to you daily by the grand ovations you are receiving from the American people.

"We also extend through you our especial greeting to your imperial brother, the emperor of the great German nation, and trust you may convey to him a report of interesting and enjoyable experiences here which shall ever remain a pleasant memory.

"Without consuming too much of your limited time I beg to present to you the members of the assembly."

THE PRINCE RESPONDS.

When Speaker Nixon had concluded the prince, bowing, said:

"I can only repeat to you, gentlemen, what I have said five minutes ago, and it is absolutely true what you say of the ovations which I have received during my stay in the United States. I am perfectly aware of the fact that your nation means well with ours and all I can do is to report to his majesty, the emperor, the kind manner in which I have been received, not only here, but during my stay in the United States. I am deeply grateful for it and am not likely to forget it."

The brief response of the prince was received with applause. When it was concluded the visiting party was escorted from the chamber.

After leaving the assembly chamber the prince passed down the magnificent western staircase. On reaching the first landing he stopped and after intently looking for a time he stated that it was one of the grandest he had ever had the privilege of looking at. He left the capitol by the east entrance and was driven slowly to the station. All along the route he was loudly cheered and was kept busy acknowledging the ovation. At the depot the special train was boarded, after farewells had been exchanged, and the visitors left at 10:30, over the West Shore railroad, for West Point.

THE PRINCE AT WEST POINT.

West Point, N. Y., March 7.—Prince Henry reached West Point at 2:10 o'clock. He was met at the station by Colonel Mills and the officers of the United States military academy and under a guard of cavalry was escorted to the parade ground. As his carriage ascended the hill from the station Knox battery fired a salute of twenty-one guns. The cadets were then paraded on the field and Prince Henry marched down the long line of six companies inspecting them.

prehensive. Practically all the passengers had retired. I was taking a last look at the weather and in so doing peered over the ship's side, when, without the slightest warning, there came a fearful crash, which made the Waesland stagger from stem to stern.

"'My God. We are struck,' I shouted.

"Then there loomed right over the ship's bow the steamer which had run into us. It was terrifying, of course. We instantly recognized the peril. The darkness at that time was impenetrable, but there was no mistaking the terrible consequences of such an impact. The nose of the Harmonides appeared to have eaten right into our side. We were going very slowly, with no more speed than was necessary to keep headway. We were struck at right angles, a tremendous hole was made and, for a moment, the steam of the Harmonides was literally inside our ship.

A REIGN OF TERROR.

"A rush of excited people from all parts of the ship immediately ensued. The passengers tumbled up just as they had retired for the night. The men, women and children were in their night dresses. In a few instances the passengers had thrown a shawl or a blanket over their shoulders. Terror and bewilderment reigned for a few moments, but the passengers gradually ranged themselves in groups about the decks, where they were best sheltered, and the crew worked like clockwork in getting out the boats. The only exception to the good behavior of the passengers was in the case of a saloon passenger who rushed hither and thither, calling in turn on heaven and earth to rescue him. Fortunately the other passengers were not affected by this man's pitiable mental agony, but were quietly and methodically marshalled into the boats.

"The experience in the small boats was trying, on account of the darkness and cold. We did not know exactly where we were, and for a long time could not discover the whereabouts of the Harmonides, though she was near by. The boats stood well away from the sinking Waesland, for fear of being sucked down, and we could hear the rending and tearing of her timbers as she seemed to break in two. Then there was a terrible explosion as the boilers blew up, and all was over.

"We drifted and rowed for, seemingly, two to three hours, when we finally got in touch with the Harmonides. We had no difficulty in getting on board. All our effects went to the bottom with the Waesland.

COLLISION WAS TERRIFIC.

"The collision was terrific, quite in the suddenness of the shock and in the completeness of the steamer's destruction and we think we were most fortunate in escaping as we did."

P. R. Ferguson, a saloon passenger, who, curiously enough, was on board the Waesland when she collided with a schooner, not far from Philadelphia, says the principal excitement took the form of rushing for life belts. He saw a man who had seven life belts attached to various parts of his body.

As the last boat, in which Mr. Ferguson was seated, was leaving the ship's side, cries for help were heard on board of her and the boat returned and found that two of the Waesland's crew had been left behind. One of these men had slept throughout the time from the first impact to the last boat leaving the sinking steamer and only discovered his perilous position when the sea water flooded his bunk, through the port holes.

The Waesland is owned by the International Navigation company, but flies the Belgian flag. She plied regularly in the American line service between Philadelphia and Liverpool, touching at Queenstown each way. Formerly she was known as the Russia. She is a four-masted, bark-rigged iron vessel of 3,676 tons net.

Messrs. J. and G. Thompson built her at Glasgow in 1867. The Waesland's dimensions are: Length, 436.1 feet; breadth, 41.9 feet, and depth, 29.9 feet. She is equipped with electricity and has triple expansion engines of 3,500 indicated horse power.

CAUSED LOSS OF LIFE.

Dr. E. H. Shelmerdine, of Philadelphia, who, with his wife, was a passenger on board the Wnesland, attributes the accident to the life boat to Dangerfield attempting to spring on board, thereby breaking his own neck and causing the death of Elsie Emmett. Dr. Shelmerdine lost his valuable instruments and jewelry. He says Captain Allfeld, of the Waesland had on board his 35 years' savings, in specie; but he would not attempt to leave the bridge to fetch the money until all the passengers were safely in the boats. Then it was too late to go below and the money was lost. Mrs. Hanson, of Chicago, a widow, was a considerable loser by the sinking of the Waesland.

The two sons of Dangerfield, who was killed in one of the life boats, returned to Kansas three weeks ago.

IGNORED THE QUARANTINE

MANY STUDENTS HURRIED OUT OF HUNTINGTON.

Northern Cases of Smallpox Said to Have Resulted From It—Officers After Them.

Information from Rome City today is to the effect that a number of cases of smallpox in the vicinity of Kendallville and that place are believed to have resulted from students breaking quarantine regulations at Huntington.

Noble county health officers are actively at work getting the suspected cases under supervision. It is claimed that half a dozen or more young people from Noble county, as well as others from Whitley county, who were attending school at Huntington when the disease made its appearance there, ignored the quarantine restrictions and hurried out of the town at the first opportunity. Several of these have now developed typical cases of smallpox, though of a mild type.

Constables from Kendallville, acting under the direction of the health authorities, have been working the past two days to get track of all those who left Huntington for Noble county, and the families will be placed under strict quarantine until danger is past.

INTERMENT OCCURRED TODAY.

Funeral services for the late Max Nirdlinger, who died at St. Louis, were held this morning at the Lindenwood chapel, Rabbi Cohn officiating, and the interment followed at Lindenwood. The pall bearers were Messrs. A. P. Buchman, A. B. Trentman, Moses Koch, of Cleveland; H. C. Hanna, Louis Schirmeyer and Ronald Dawson. The floral offerings were unusually beautiful and elaborate. Mrs. Max Nirdlinger and daughters, Miss Maude and Miss Daisy, and son, Clarence Nirdlinger, arrived in the city yesterday, as did two brothers of the deceased, Messrs. Charles Nirdlinger, of New York, and Frank Nirdlinger, of Philadelphia.

MURDERED BY ROBBERS.

Butler, Pa., March 7.—Three masked men broke into the house of an aged man named Smith, living at Saxonburg, Pa., last night, and brutally murdered the old man and tortured Mrs. Smith in a fiendish manner. They then ransacked the house and secured $200, and after destroying considerable property about the house, made good their escape. Mrs. Smith was badly frightened and was unable to leave the house to give the alarm to neighbors until 7 o'clock this morning. Sheriff Hoon and several officers are after the robbers.

FINDS CONVENT GIRL WEDDED.

Columbia, S. C., March 7.—There was a flutter among the girls in the Ursuline convent here yesterday when it was learned that the mother superior had decided to send Miss Georgia Harvey, aged seventeen, back to her home in Rome, Ga. A sister accompanied her. The young woman made no explanation. At the station Henry Harrison, representing a Chicago portrait painting house, claimed the girl as his wife. They were married by a justice while she was visiting friends last June. About a dozen times since the marriage she has spent an hour or two with her husband, who met her at a friend's house.

54-Inch Black Taffeta Silk.

You are familiar, for who is not, with the superb Satins made by the Skinner Mfg. Co. Manufacturers of Men's and Ladies' Suits feel that when they advertise that Skinner's Satins are used in their garments they are saying all that can be said in favor of the beauty and durability of their goods in this particular.

The Skinner Mfg. Co. have placed on the market a BLACK TAFFETA SILK, which they intend shall win, by reason of its merits, the same place in the estimation of the public that their Satins hold.

The regular retail price of this elegant fabric is $3.00 a yard, but as it is one yard and a half wide, about three times the ordinary width of silk, it is in price no more expensive than narrower silks, quality considered, and in many respects this width cuts to great advantage.

We were the first, several years ago, to introduce to this market the Skinner Satins, and are now pleased to be the first to offer, under the same guarantee, their 54-inch Black Taffeta Silk.

PRINCE IN ALBANY

HENRY VISITS CAPITAL OF THE EMPIRE STATE.

RECEIVED BY THE GOVERNOR

WARM RECEPTION BY STATE LEGISLATURE.

IS A GUEST OF WEST POINT

MILITARY ACADEMY RECEIVES SAILOR PRINCE.

Albany, N. Y., March 7.—It was 12:25 o'clock when Prince Henry boarded his train at Boston this morning and 2:05 o'clock when the train departed for Albany. The prince retired at once. There were no delays anywhere en route and the special was kept several minutes ahead of the schedule arranged for it. There had been a very heavy fall of snow in Massachusetts, but there were no drifts and the tracks were clear. The prince arose at 7:30 o'clock and was at breakfast when his train entered the railroad yards at Albany. He wanted to leave the table at once, but as the train was more than twenty minutes ahead of time, a stop was made in the yards, where he finished his meal. The prince was very tired when the Boston reception came to an end, but he seemed quite refreshed when he arose this morning.

It was 8:30 when the special reached the union depot. The depot grounds had been cleared and the police formed a cordon around the car Columbia. Mayor Gaus and George Sard, chairman of the reception committe, were in waiting and were introduced to the prince at once, Ambassador Von Holleben presenting them.

GOVERNOR WAS LATE.

Governor Odell was late in arriving, through some misunderstanding as to the time, and the prince and his party waited for him. He arrived about ten minutes later and in behalf of the state bade the prince welcome. The prince was then shown to a carriage, around which formed the smartly uniformed riders of troop B. When the party had all been placed in carriages a start was made for the city. Broadway was filled with people, and as the carriage bearing the prince emerged from the depot driveway there was a resounding cheer.

Stationed at various points along the route were companies of the New York state militia.

Hundreds of men had been at work all yesterday clearing away the snow from the streets through which the procession passed and they were in good condition. The buildings along the route presented a brilliant appearance, being tastefully decorated with the American and German colors intertwined. German and American colors were draped over the front of the city hall and the mayor's office, to which the prince was escorted immediately upon arriving.

Enormous crowds lined the streets and taxed the patience of both the police and national guardsmen in keeping them back on the sidewalks.

Admission to both the city hall and capitol was by card, but poor judgment had been exercised in issuing them and in both places the crush was terrific and many of those entitled to admission were forced back by the guards.

THE FORMAL WELCOME.

When the party entered the city hall they were escorted to the mayor's office, and Mayor Charles H. Gaus extended the formal welcome to the city. He said:

"Your Royal Highness: I have the honor on behalf of the city officials and the common council of Albany to welcome you to the historic and hospitable capital city of the empire state. I assure you, sir, that the city of Albany feels deeply honored in having this opportunity to add your name to the long list of the personal representatives of the heads of other governments that have paid this city a visit. I welcome you as the personal representative of your brother, William II., the German emperor, who is the head of a people who are on friendly terms with our country.

"We have here in Albany about 25,000 German-Americans. They are of that class of men whom you met in the middle west—men who, at the time we were threatened with dismemberment, loyally espoused the cause of the union of our states. I also am happy to extend the hand of welcome to you, because as a man you have endeared yourself to all the American people that you have met.

'As a souvenir of your visit among us, I have prepared an illustrated parchment, granting you the freedom of the city, enclosed in its silver case, which I take pleasure in presenting.

"While it is not my purpose to detain you and your party with any extended remarks, knowing that you came to Albany to see and not so much to hear, still I want to call your attention to one fact, which I think will interest you. When you came out of the railroad station you set foot on Steuben street, which was named after the former aide-de-camp of Frederick, the Great, who came to America to put our revolutionary army in proper shape and who did it, thereby making the revolutionary war a success. As you already know, Von Steuben, at our General Washington's suggestion, was made inspector general, with the rank of major general."

The prince thanked the mayor for the gift and said that he would greatly prize it. The party was then shown the original Dongan charter, granted by Governor Dongan 216 years ago. A short time was devoted to introductions and then carriages were re-entered and the party proceeded to the capitol.

VISIT TO THE CAPITOL.

Prince Henry and his escort reached the capitol at 9:20 o'clock. They were met at the eastern entrance by Adjutant General Henry and escorted to the executive chamber, where Governor Odell and his staff were waiting to receive the royal visitor.

The reception in the executive chamber was thoroughly informal. Governor Odell had already met the prince at the train, and there was no necessity for introductions. The prince entered with General Henry, and, stepping forward, grasped the hand of Governor Odell. He was introduced by the governor to Mrs. B. B. Odell, Mrs. Henry, Mrs. Hall, of Larchmont; Hiram H. Odell, the governor's brother, and Rt. Rev. William Croswell Doane. Introductions then followed to the members of the governor's staff and the senatorial committee.

There were no set speeches. The distinguished visitor chatted with the governor for a few minutes, expressing great admiration for the beauty of the capitol and particularly of the executive chamber, which he said was one of the most magnificent in the world.

THE PRINCE RESPONDS.

When Speaker Nixon had concluded the prince, bowing, said:

"I can only repeat to you, gentlemen, what I have said five minutes ago, and it is absolutely true what you say of the ovations which I have received during my stay in the United States. prehensive. Practically all the passengers had retired. I was taking a last look at the weather and in so doing peered over the ship's side, when, without the slightest warning, there came a fearful crash, which made the Waesland stagger from stem to stern.

"'My God. We are struck,' I shouted.

"Then there loomed right over the ship's bow the steamer which had run into us. It was terrifying, of course. We instantly recognized the peril. The darkness at that time was impenetrable, but there was no mistaking the terrible consequences of such an impact. The nose of the Harmonides appeared to have eaten right into our side. We were going very slowly, with no more speed than was necessary to keep headway. We were struck at right angles, a tremendous hole was made and, for a moment, the steam of the Harmonides was literally inside our ship.

A REIGN OF TERROR.

"A rush of excited people from all parts of the ship immediately ensued. The passengers tumbled up just as they had retired for the night. The men, women and children were in their night dresses. In a few instances the passengers had thrown a shawl or a blanket over their shoulders. Terror and bewilderment reigned for a few moments, but the passengers gradually ranged themselves in groups about the decks, where they were best sheltered, and the crew worked like clockwork in getting out the boats. The only exception to the good behavior of the passengers was in the case of a saloon passenger who rushed hither and thither, calling in turn on heaven and earth to rescue him. Fortunately the other passengers were not affected by this man's pitiable mental agony, but were quietly and methodically marshalled into the boats.

"The experience in the small boats was trying, on account of the darkness and cold. We did not know exactly where we were, and for a long time could not discover the whereabouts of the Harmonides, though she was near by. The boats stood well away from the sinking Waesland, for fear of being sucked down, and we could hear the rending and tearing of her timbers as she seemed to break in two. Then there was a terrible explosion as the boilers blew up, and all was over.

"We drifted and rowed for, seemingly, two to three hours, when we finally got in touch with the Harmonides. We had no difficulty in getting on board. All our effects went to the bottom with the Waesland.

COLLISION WAS TERRIFIC.

"The collision was terrific, alike in the suddenness of the shock and in the completeness of the steamer's destruction and we think we were most fortunate in escaping as we did."

P. R. Ferguson, a saloon passenger, who, curiously enough, was on board the Waesland when she collided with a schooner, not far from Philadelphia, says the principal excitement took the form of rushing for life belts. He saw a man who had seven life belts attached to various parts of his body.

As the last boat, in which Mr. Ferguson was seated, was leaving the ship's side, cries for help were heard on board of her and the boat returned and found that two of the Waesland's crew had been left behind. One of these men had slept throughout the time from the first impact to the last boat leaving the sinking steamer and only discovered his perilous position when the sea water flooded his bunk, through the port holes.

The Waesland is owned by the International Navigation company, but flies the Belgian flag. She plied regularly in the American line service between Philadelphia and Liverpool, touching at Queenstown each way. Formerly she was known as the Russia. She is a four-masted, bark-rigged iron vessel of 3,676 tons net.

Messrs. J. and G. Thompson built her at Glasgow in 1867. The Waesland's dimensions are: Length, 436.1 feet; breadth, 41.9 feet, and depth, 29.9 feet. She is equipped with electricity and has triple expansion engines of 3,500 indicated horse power.

CAUSED LOSS OF LIFE.

Dr. E. H. Shelmerdine, of Philadelphia, who, with his wife, was a passenger on board the Waesland, attributes the accident to the life boat to Dangerfield attempting to spring on board, thereby breaking his own neck and causing the death of Elsie Emmett. Dr. Shelmerdine lost his valuable instruments and jewelry. He says Captain Altfeld, of the Waesland had on board his 35 years' savings, in specie; but he would not attempt to leave the bridge to fetch the money until all the passengers were safely in the boats. Then it was too late to go below and the money was lost. Mrs. Hanson, of Chicago, a widow, was a considerable loser by the sinking of the Waesland.

The two sons of Dangerfield, who was killed in one of the life boats, returned to Kansas three weeks ago.

ABOUT THE COURT HOUSE.

The superior court transacted only incidental business today.

Miss Bertha Ploch was taken to the Richmond insane asylum today by Special Deputy Sheriff Ernest Branning, accompanied by a lady attendant.

Sheriff Stout has sufficiently recovered from his recent illness to again be about his office.

In the damage suit of Fox vs. the Wabash railway a struck jury has been selected and the case is set for March 17. Neither Fox nor the railroad company can trace a direct lineage to St. Patrick and both will have to take chances with the jury.

Gottlieb E. Figel sues Josephine Figel for divorce and no other relief.

The case of Osborne vs. Lenington has been dismissed in the circuit court.

The clerk of the circuit court was this morning notified that the case of William H. Niblack vs. Pelz, venued here from Adams county, has been compromised out of court, the costs paid and dismissed.

In the matter of the Hathaway ditch appealed from the commissioners' court, the drainage commissioners recommended that the time for filing a comprehensive report on the ditch be extended to March 17 and the court so ordered.

The commissioners were today discussing ditch matters. In the matter of the Scharper ditch in Adams township a remonstrance was filed and Adam Marquart, Frederick Nahrwald and Frank Gladio were appointed reviewers. A petition for the establishment of what is known as the Chevillet ditch in Jackson township was received and Deidrick Rodenbeck, H. J. Hoevel and Martin Denzel were appointed viewers.

PAUNCEFOTE'S SUCCESSOR.

London, March 7.—The Yorkshire Post today says it learns that Hon. Alfred Lyttelton is likely to succeed Lord Pauncefote as British ambassador at Washington.

The Up-to-Date Thimble club was entertained yesterday afternoon by Mrs. G. W. Mines at her home, 54 Jackson street. Luncheon was served and the tables were prettily done in the club colors, pink and green. Prizes in the guessing contest were won by Mrs. J. A. Ludington and Mrs. Peter Hemkenius.

IGNORED THE QUARANTINE

MANY STUDENTS HURRIED OUT OF HUNTINGTON.

Northern Cases of Smallpox Said to Have Resulted From It—Officers After Them.

Information from Rome City today is to the effect that a number of cases of smallpox in the vicinity of Kendallville and that place are believed to have resulted from students breaking quarantine regulations at Huntington.

Noble county health officers are actively at work getting the suspected cases under supervision. It is claimed that half a dozen or more young people from Noble county, as well as others from Whitley county, who were attending school at Huntington when the disease made its appearance there, ignored the quarantine restrictions and hurried out of the town at the first opportunity. Several of these have now developed typical cases of smallpox, though of a mild type.

Constables from Kendallville, acting under the direction of the health authorities, have been working the past two days to get track of all those who left Huntington for Noble county, and the families will be placed under strict quarantine until danger is past.

INTERMENT OCCURRED TODAY.

Funeral services for the late Max Nirdlinger, who died at St. Louis, were held this morning at the Lindenwood chapel, Rabbi Cohn officiating, and the interment followed at Lindenwood. The pall bearers were Messrs. A. P. Buchman, A. B. Trentman, Moses Koch, of Cleveland; H. C. Hanna, Louis Schirmeyer and Ronald Dawson. The floral offerings were unusually beautiful and elaborate. Mrs. Max Nirdlinger and daughters, Miss Maude and Miss Daisy, and son, Clarence Nirdlinger, arrived in the city yesterday, as did two brothers of the deceased, Messrs. Charles Nirdlinger, of New York, and Frank Nirdlinger, of Philadelphia.

MURDERED BY ROBBERS.

Butler, Pa., March 7.—Three masked men broke into the house of an aged man named Smith, living at Saxonburg, Pa., last night, and brutally murdered the old man and tortured Mrs. Smith in a fiendish manner. They then ransacked the house and secured $200, and after destroying considerable property about the house, made good their escape. Mrs. Smith was badly frightened and was unable to leave the house to give the alarm to neighbors until 7 o'clock this morning. Sheriff Hoon and several officers are after the robbers.

FINDS CONVENT GIRL WEDDED.

Columbia, S. C., March 7.—There was a flutter among the girls in the Ursuline convent here yesterday when it was learned that the mother superior had decided to send Miss Georgia Harvey, aged seventeen, back to her home in Rome, Ga. A sister accompanied her. The young woman made no explanation. At the station Henry Harrison, representing a Chicago portrait painting house, claimed the girl as his wife. They were married by a justice while she was visiting friends last June. About a dozen times since the marriage she has spent an hour or two with her husband, who met her at a friend's house.

CHOLERA AT MEDINA.

Constantinople, March 7.—Cholera has broken out among the pilgrims at Medina. One hundred and ten deaths from the disease have occurred.

NEW SILK SHOWING
—AT—
WAYNE DRY GOODS CO.
With Special Prices Throughout the Present Week.

To attract your attention to our handsome line of NEW SILKS we will have a WEEK'S SELLING at SPECIAL PRICES.

Our new (self colors) TAFFETA CORDS are beautiful goods and a great bragain.

Our new light-weight TAFFETA LINING SILKS meet the universal demand for a handsome medium priced lining.

Our new, plain and fancy WAISTING TAFFETAS will please you both as to style and texture.

We will also take pleasure in presenting for your inspection something new in the way of a

54-Inch Black Taffeta Silk.

You are familiar, for who is not, with the superb Satins made by the Skinner Mfg. Co. Manufacturers of Men's and Ladies' Suits feel that when they advertise that Skinner's Satins are used in their garments they are saying all that can be said in favor of the beauty and durability of their goods in this particular.

The Skinner Mfg. Co. have placed on the market a BLACK TAFFETA SILK, which they intend shall win, by reason of its merits, the same place in the estimation of the public that their Satins hold.

The regular retail price of this elegant fabric is $3.00 a yard, but as it is one yard and a half wide, about three times the ordinary width of silk, it is in price no more expensive than narrower silks, quality considered, and in many respects this width cuts to great advantage.

We were the first, several years ago, to introduce to this market the Skinner Satins, and are now pleased to be the first to offer, under the same guarantee, their 54-inch Black Taffeta Silk.

Mrs. Clark Gifford entertained the North Side Pedro club at her home, 39 East Fourth street, Wednesday evening, in honor of her mother, Mrs. Addie Spaulding. There were sixteen guests and prizes were won by Mrs. Edward Schoch and Miss Carrie Haiber, Mrs. Walter Ortlieb securing the booby prize.

A. D. Eddington, of the Indiana Furniture company, was very pleasantly surprised Tuesday evening, when a number of friends called to celebrate his birthday anniversary. The evening was delightfully spent at progressive pedro, first prizes being won by Miss Hannah Menzel and Henry Rippe, the consolations going to Miss Bertha Lawton and Emil Gulme. Luncheon was served at midnight.

Columbia City Post: "Harry Addings, Ernest Malone and Heber Wagner left yesterday afternoon with Edward Willett for Fort Wayne and accepted positions in the heel factory put in operation a few days ago, in which Mr. Willett is overseer. Some other young men who are working in the plant here, when they have an opportunity, say they expect to begin work in the Summit City in a few days."

Little Gerald McKinnie, who shot himself through the foot the other day, is getting along very nicely and it is not thought that he will sustain any permanent inconvenience by reason of the accident. Every day or two an extra pound or so of fine shot drops out of the hole in his foot, but there is only one broken bone and as the wound is well forward in the foot, near the base of the small toe, no permanent lameness is apprehended.

DIFFICULTIES ANSWERED.

Next Sunday evening, at Grace Reformed church, Rev. A. K. Zartman will answer some of the difficulties that commonly stand in the way of the unconverted in coming to Christ, viz. First, I am not good enough to become a Christian; second, I cannot be a Christian in my business; third, I am afraid of ridicule; fourth, I first want to get settled in business and life; fifth, there are too many hypocrites in the church; sixth, I am good enough and will take my chances; seventh, I could not hold out; eighth, I do not feel right; ninth, I tried and failed.

Weak?

Then you want strength. Good food, an active liver, and pure blood will bring it. You naturally think of eggs and milk, Ayer's Pills and Ayer's Sarsaparilla. Ask your doctor if he can come any nearer to the truth. Do as he says, at any rate.

DON'T EXPECT ELECTION.

(South Bend Times.)

That remarkably handsome young man, Clarence C. Gilhams, of Lagrange, was on Tuesday nominated for congress by the republicans of the Twelfth district. His beauty is liable to be somewhat marred when he encounters "Jimmy" Robinson during the ensuing campaign. Gilhams is said to be an eloquent speaker, but very few of his party associates place much confidence in his ability to secure an election.

HAD RELATIVES HERE.

(Columbia City Post.)

Miss Hannah Brookman, a niece of Henry Lucke, died Wednesday evening at 8:30 at his home in Peabody. For several years the deceased made her home with different relatives in Washington township, as her mother has been dead for about sixteen years. She leaves a father and a married sister, both being residents of Fort Wayne, besides the relatives of this county. She was afflicted with spinal trouble and during the winter was unable to get about. The above named disease was the cause of her death. The funeral occurs Saturday from the St. John's Lutheran church at Arnolds, Rev. Otto officiating. Burial in the church cemetery.

STICK TO IT

Until Coffee Hits You Hard.

It is about as well to advise people to stick to coffee until they get hit hard enough, so that they will never forget their experience, although it is rather unpleasant to have to look back to a half dozen years of invalidism, money and opportunity thrown away, which is really the terrible price paid for the weakest kind of a "mess of pottage."

A woman writes and her letter is condensed to give the facts in a short space. "I was a coffee slave and stuck to it like a toper to his 'cups,' notwithstanding I had headaches every day, and frequently severe attacks of sick headaches; then I used more coffee to relieve the headaches, and this was well enough until the coffee stimulant wore off; then I would have sick spells. Finally my digestion was ruined, severe attacks of rheumatism began to appear and ultimately the whole nervous system began to break down and I was fast becoming a wreck.

"At this time I was induced to quit coffee and take up Postum Food Coffee. This was half a year ago. The result has been most satisfactory. The rheumatism is gone entirely, blood is pure, nerves practically well and steady, digestion almost perfect, never have any more sick headaches and am gaining steadily in weight and strength." Name given by Postum Co., Battle Creek, Mich.

THE HUNTINGTON SITUATION.

The smallpox situation at Huntington seems to be well in hand and the health officers are taking every precaution to prevent a further spread of the disease. A day or two ago Dr. Proegler wrote the health officer there, making some suggestions which he thought necessary in order to avoid the necessity of establishing a quarantine between Fort Wayne and Huntington. In response thereto Dr. Proegler last evening received the following very courteous as well as satisfactory letter from the neighboring health officer:

Huntington, Ind., March 5, 1902.—Carl Proegler, M. D., Secretary Board of Health.—Dear Doctor: Yours of the 4th ult. at hand and will say that we are fully alive to the situation in regard to the smallpox. General vaccination has been ordered and the schools especially so. The cars will be disinfected with formaline, although if done it should be every trip, for obvious reasons. We are pretty well organized and growing stronger. We are trying to quarantine every suspect or exposure. Some doctors and a few citizens opposing us, as usual.

FARM LANDS.

The population of the United States, now 76,000,000, will be in only eighteen more years, 120,000,000 and the future of farm lands is brilliant. It will not be many years until highly productive farms are on a 5 per cent. basis, as in England, and price $200 per acre. Emigration no longer goes west from Illinois, (lack of rain in Kansas and Nebraska) the tide has turned and is coming east into Indiana. Many have sold their Illinois farms at $125 per acre to buy in Indiana at $60 and $70 per acre.

The famous Williams farm, on Eel river, two miles west of Laketon, Wabash county, Ind., (two railroads) 627 acres, soon to be marked up to $50 per acre, and cheap at that, is now offered at $40 per acre; one-third down, balance on time to suit at 6 per cent. In this last bad corn year the upland on this farm produced a fair crop and the rich bottom soil sixty bushels per acre. The quarter sections of this land are overrunning fractionals and may survey out thirty acres more than 627, but will be sold for 627 acres. Apply to

HENRY M. WILLIAMS,

A. D. Eddington, of the Indiana Furniture company, was very pleasantly surprised Tuesday evening, when a number of friends called to celebrate his birthday anniversary. The evening was delightfully spent at progressive pedro, first prizes being won by Miss Hannah Menzel and Henry Rippe, the consolations going to Miss Bertha Lawton and Emil Gulme. Luncheon was served at midnight.

Columbia City Post: "Harry Addings, Ernest Malone and Heber Wagner left yesterday afternoon with Edward Willett for Fort Wayne and accepted positions in the heel factory put in operation a few days ago, in which Mr. Willett is overseer. Some other young men who are working in the plant here, when they have an opportunity, say they expect to begin work in the Summit City in a few days."

Little Gerald McKinnie, who shot himself through the foot the other day, is getting along very nicely and it is not thought that he will sustain any permanent inconvenience by reason of the accident. Every day or two an extra pound or so of fine shot drops out of the hole in his foot, but there is only one broken bone and as the wound is well forward in the foot, near the base of the small toe, no permanent lameness is apprehended.

DIFFICULTIES ANSWERED.

Next Sunday evening, at Grace Reformed church, Rev. A. K. Zartman will answer some of the difficulties that commonly stand in the way of the unconverted in coming to Christ, viz. First, I am not good enough to become a Christian; second, I cannot be a Christian in my business; third, I am afraid of ridicule; fourth, I first want to get settled in business and life; fifth, there are too many hypocrites in the church; sixth, I am good enough and will take my chances; seventh, I could not hold out; eighth, I do not feel right; ninth, I tried and failed.

Weak?

Then you want strength. Good food, an active liver, and pure blood will bring it. You naturally think of eggs and milk, Ayer's Pills and Ayer's Sarsaparilla. Ask your doctor if he can come any nearer to the truth. Do as he says, at any rate.

"For 25 years I have never missed taking Ayer's Sarsaparilla every spring. It cleanses my blood, makes me feel strong, and does me good in every way." John P. Hodnette, Brooklyn, N. Y.

DON'T EXPECT ELECTION.

(South Bend Times.)

That remarkably handsome young man, Clarence C. Gilhams, of Lagrange, was on Tuesday nominated for congress by the republicans of the Twelfth district. His beauty is liable to be somewhat marred when he encounters "Jimmy" Robinson during the ensuing campaign. Gilhams is said to be an eloquent speaker, but very few of his party associates place much confidence in his ability to secure an election.

BIDS HIGH FOR HUSBANDS.

New York, March 7.—Lieut. B. Van Schaick, who recently returned from the Philippines, says, according to a World dispatch from San Francisco, that General Zano, of Cavite, a multi-millionaire, has offered to give $500,000 to each American army officer who will marry his daughters.

HAD RELATIVES HERE.

(Columbia City Post.)

Miss Hannah Brookman, a niece of Henry Lucke, died Wednesday evening at 8:30 at his home in Peabody. For several years the deceased made her home with different relatives in Washington township, as her mother has been dead for about sixteen years. She leaves a father and a married sister, both being residents of Fort Wayne, besides the relatives of this county. She was afflicted with spinal trouble and during the winter was unable to get about. The above named disease was the cause of her death. The funeral occurs Saturday from the St. John's Lutheran church at Arnolds, Rev. Otto officiating. Burial in the church cemetery.

STICK TO IT

Until Coffee Hits You Hard.

It is about as well to advise people to stick to coffee until they get hit hard enough, so that they will never forget their experience, although it is rather unpleasant to have to look back to a half dozen years of invalidism, money and opportunity thrown away, which is really the terrible price paid for the weakest kind of a "mess of pottage."

A woman writes and her letter is condensed to give the facts in a short space. "I was a coffee slave and stuck to it like a toper to his 'cups,' notwithstanding I had headaches every day, and frequently severe attacks of sick headaches; then I used more coffee to relieve the headaches, and this was well enough until the coffee stimulant wore off; then I would have sick spells. Finally my digestion was ruined, severe attacks of rheumatism began to appear and ultimately the whole nervous system began to break down and I was fast becoming a wreck.

"At this time I was induced to quit coffee and take up Postum Food Coffee. This was half a year ago. The result has been most satisfactory. The rheumatism is gone entirely, blood is pure, nerves practically well and steady, digestion almost perfect, never have any more sick headaches and am gaining steadily in weight and strength." Name given by Postum Co., Battle Creek, Mich.

THE HUNTINGTON SITUATION.

The smallpox situation at Huntington seems to be well in hand and the health officers are taking every precaution to prevent a further spread of the disease. A day or two ago Dr. Proegler wrote the health officer there, making some suggestions which he thought necessary in order to avoid the necessity of establishing a quarantine between Fort Wayne and Huntington. In response thereto Dr. Proegler last evening received the following very courteous as well as satisfactory letter from the neighboring health officer:

Huntington, Ind., March 5, 1902.—Carl Proegler, M. D., Secretary Board of Health.—Dear Doctor: Yours of the 4th ult. at hand and will say that we are fully alive to the situation in regard to the smallpox. General vaccination has been ordered and the schools especially so. The cars will be disinfected with formaline, although if done it should be every trip, for obvious reasons. We are pretty well organized and growing stronger. We are trying to quarantine every suspect or exposure. Some doctors and a few citizens opposing us, as usual.

"Chas. L. Wright, M. D."

SONG PUBLISHERS PROTEST.

London, March 7.—The United States ambassador, Joseph H. Choate, today received a deputation of music publishers interested in the copyright of American songs who are suffering from the piracy prevalent in Great Britain. They desire that Washington bring the matter to the notice of the British government. Mr. Choate promised to transmit their representations to the proper quarters.

FARM LANDS.

The population of the United States, now 76,000,000, will be in only eighteen more years, 120,000,000 and the future of farm lands is brilliant. It will not be many years until highly productive farms are on a 5 per cent. basis, as in England, and price $200 per acre. Emigration no longer goes west from Illinois, (lack of rain in Kansas and Nebraska) the tide has turned and is coming east into Indiana. Many have sold their Illinois farms at $125 per acre to buy in Indiana at $60 and $70 per acre.

The famous Williams farm, on Eel river, two miles west of Laketon, Wabash county, Ind., (two railroads) 627 acres, soon to be marked up to $50 per acre, and cheap at that, is now offered at $40 per acre; one-third down, balance on time to suit at 6 per cent. In this last bad corn year the upland on this farm produced a fair crop and the rich bottom soil sixty bushels per acre. The quarter sections of this land are overrunning fractionals and may survey out thirty acres more than 627, but will be sold for 627 acres. Apply to

No offense will be taken in this country if Prince Henry voices the conclusion that the Americans have made him tired.

Striped sweaters of lurid hue, ten-mile jogs and vigorous rub-downs are likely to become features of police discipline in this city. The mayor insists that the overfed and overfleshed patrolmen must get down to the weight called for in the articles of agreement. Pale tea and toast diet will be the order on the force.

The mayor has declared that gambling must go and it is to be hoped the order will be enforced in such manner as will not give the gamblers an impression that the mayor means that it is to go on.

For a week Tillman has been quiet and likewise silent. McLaurin is either following or setting this good example and the senate has again lapsed into the humdrum from which the one-round draw of the South Carolina belligerents aroused it.

"Tariff concessions to Cuba," says Chairman Payne, of the house ways and means committee, "will delay annexation." So, too, will the turning over of Cuban affairs to the care and management of an independent Cuban government delay annexation. But this country cannot well get away from the obligation to do that, even if it should forever frustrate the hopes of the annexationists in this country. All our obligations to Cuba may be dodged or wantonly violated for the sake of annexation, but that will not give better countenance to the morals of the situation.

CARRY NO DEAD WEIGHT.

The democratic majority in Allen county, like the party majority in every other community, is attractive to the ambitions of men who, were contests close and doubtful, would never be thought of as candidates for office. Occasionally, by skillful manipulation, such a man secures a coveted place on the party ticket and feels safe because the party is strong enough to carry him. No party ought to handicap itself with candidates of doubtful character because it has the strength to carry odds in the race.

Just at this time the democratic party here is somewhat weak in the back and stiff in the legs from being overweighted in a recent contest. The party cannot afford this year to take on dead weight. Every man placed on the ticket should be a source of strength to the party and added assurance of victory. The party owes to the people and owes to itself the construction of a ticket that in the fullest measure guarantees entire and hearty support of all democrats and invites the confidence of the people.

The candidate who must be apologized for or who needs whitewashing is a burden that the party has no business to carry. Every candidate on the ticket should be a man whose character and fitness can speak for him. The "good fellow" plea will not satisfy the voters on the score of a candidate's qualifications, where his personal habits and moral character are gravely questioned. The party simply cannot excuse itself if it commits the offense of offering such a candidate to the voters as worthy of their votes and deserving of their confidence.

Let the democratic party not handicap itself in this coming contest. Let there be nominated no man who will prove a dead weight on the ticket. Let the convention next week give to the people of Allen county the highest proof that the democratic party is worthy of the strength it possesses and the confidence it asks.

LOOKING OVER MAIL ROUTES

RURAL INSPECTOR FOX ARRIVED YESTERDAY.

Carriers Get a Raise of $100 a Year —List of Eligibles for Clerk and Carrier.

Rural Mail Route Inspector Fox arrived in the city yesterday to begin the work of going over the eight rural mail routes now in operation out of Fort Wayne. These inspections are made each year and careful attention is given to the highways, the condition of mail boxes in front of farmers' residences and the general interest shown in the service. Mr. Fox's first inspection was over route No. 1, which he reported in excellent condition. Today he is looking over No. 2. The rural route carriers have just been advised of an advance in salary which will date from March 1. Hereafter they will receive $800 per year, an advance of $100.

LIST OF ELIGIBLES.

The list of successful applicants who took the civil service examination for positions as clerk and carrier of the Fort Wayne postoffice has just been given out from Washington. The eligibles, with their general averages, are as follows: George E. Milnor, Rome City, 84.35; Oliver J. Hebert, jr., Fort Wayne, 81.05; Christ. Zollinger, Fort Wayne, 80.23; Ernest G. P. Stubnatzy, Fort Wayne, 71.58; William Neumann, Fort Wayne, 70.30; Jerome E. Derck, Fort Wayne, 70.15; Walter A. Hendrickson, Fort Wayne, 70.05. One lady took the examination and was also successful. This is Miss Ollie Elder, who is postmistress at Mark Center, Ohio. Her average was 77.95. Mr. Derck, whose name appears above, has already been appointed a substitute carrier.

WILL HOLD EXAMINATION.

Secretary W. J. Hess, of the civil service board, goes to Hartford City tomorrow to hold the first civil service examination ever conducted there. Free mail delivery is to be instituted at Hartford City May 1 and there are twenty-four applicants for the examination tomorrow.

Rev. D. T. Williams, pastor of the South Congregational church, returned yesterday from western New York, where he was called to officiate at the funeral of Lewis Rhodes, Cambria, a former parishioner.

Mrs. C. F. Baum has returned from a brief visit with her sister in Cleveland, Ohio.

KAISER'S OBJECT

WHY PRINCE HENRY WAS SENT TO UNITED STATES.

A CARIBBEAN NAVAL BASE IS THOUGHT DESIRABLE BY GERMAN EMPEROR.

WANTS AMERICAN CONSENT

THE LATEST VERSION TO BE CABLED FROM EUROPE.

New York, March 7.—"I am informed from a trustworthy source," says the Berlin correspondent of the Herald, "that the ultimate object of Prince Henry's visit to Washington is to bring about an agreement by which Germany will be permitted to maintain a large fleet in Carribbean waters to serve for the protection of German settlers and property rights imperilled by the frequent revolutions in the South American republics.

"In official correspondence the fleet of German warships assembled at La Guayra is styled as that of the American station. Captain Stiege, of the Vineta, has just received the title of commodore and will be commander of the South American fleet, henceforth flying his own ensign.

"Although the fleet was sent to Venezuela only for the enforcement of rights guaranteed to German capital and citizens, it already consists of five vessels and it is intended to steadily increase this number.

"A difficult issue is the acquisition of a repair dock and coaling station.

"The hope is entertained here that no objection will be made to the maintenance of the fleet in the West Indies, because it is intended to be entirely for defensive purposes and not to acquire territory.

"Protection is desired especially because the Berlin government now undertakes the task of directing the German migration movement to South America. Heretofore the work has been performed by the Hanseatic league and the colonial societies.

"The bureau is at the home office, of which Count Buelow is ex-officio presiding officer. It is mainly intended to induce German emigrants to settle in German colonies, or if they cannot be induced to go there, to settle in South America, where the home ties are still preserved."

MUSTER ORDER RESCINDED

OFFICIAL NEWS CAME TODAY FROM INDIANAPOLIS.

Fort Wayne Battery Will Remain in Service—Letters to Governor Durbin Did It.

Official news arrived today from the office of the adjutant general at Indianapolis that the order mustering out the Fort Wayne battery had been rescinded, and the light artillery organization in this city will remain a part of the state's militia.

The announcement had been expected several days in view of the trend events had taken, and at the meeting Monday evening the battery members were given assurance that the order would probably be rescinded, though there was always a chance of failure until the official announcement was made.

It is understood that one of the chief reasons for the rescinding of the order was the protest voiced by many prominent citizens of this city in letters to Governor Durbin and Adjutant General Ward. As soon as it became known that there was danger of losing the battery the matter was taken up by leading Fort Wayne citizens, who lodged a flood of protestations in the state house at Indianapolis, and this, coupled with the fact that Captain Cleary was persuaded to withdraw his resignation, resulted in the cancellation of the order mustering out the battery.

A MYSTERIOUS SHOOTING.

A young man named Smith, formerly employed as a bookkeeper at the Wayne Knitting mills, was shot in the right arm on Wednesday evening. Whether or not the shooting was accidental cannot be learned. A young man called Dr. G. B. Stemen Wednesday evening, saying that a friend had been accidentally shot, and the physician dressed the injury, but no information was vouchsafed by either party. Smith resides near Churubusco, and went home yesterday.

WILL CREATE EMBASSIES.

Vienna, March 7.—The Fremdenblatt, commenting today on the decision of the government to raise the mission of Austria-Hungary at Washington to an embassy, says: "As the United States legation at Vienna will also be converted into an embassy the relations between Austria-Hungary and the United States will be represented in a manner in consonance with their present importance and which will be enhanced in the future. Political hostility between the two countries, humanly speaking, is no more probable in the future than it was in the past. In view of the impending rearrangement of the politico-commercial relations of Europe and the United States it is doubly important to be in close contact with all nations which are pre-eminent in the economic domain."

GUTTA PERCHA MAN DEAD.

London, March 7.—James Dick, the largest English importer of gutta percha, manufacturer of submarine cables, originator of rubber-soled shoes and philanthropist, died today at his home in Glasgow.

DEFERRED STREET OPENING

BOARD HOLDS WARSAW STREET MATTER IN ABEYANCE.

Fairfield Avenue May Be Ordered Paved This Year—News of the City Hall.

At the meeting of the board of works yesterday evening the proposition to open Warsaw street, from Pontiac to Wiebke streets, was met with such serious opposition that the board deferred the matter indefinitely. There had been some decisive action taken with reference to opening the street, but several property owners affected entered such strenuous objection that the previous action was rescinded and the matter is now simply on file. Member Doehrman alone opposed rescinding the previous action of the board.

Among other matters considered were the petitions for a sidewalk and sewer on Lafayette street, between Suttenfield street and Woodland avenue, and the approval of the bond of Singmaster & Hall for printing the department reports. Manager Nelson, of the Southwestern company, was heard relative to a proposition to use six-inch instead of nine-inch rails on portions of the city tracks, but no action was taken regarding the matter.

Before the board met S. B. Bond made an informal presentation of facts regarding the street condition of Fairfield avenue, south of Creighton avenue. Mr. Bond stated that he could safely speak for a majority of the property owners between Creighton avenue and Organ avenue and knew practically all favor a substantial modern pavement laid on that street. The distance is nearly 4,000 feet, approximating three-fourths of a mile, and representing the largest frontage on either side or on both, he favored a pavement and a good one. The city, he explained, would be to a small expense. Along the entire proposed improvement there is but one intersection, which is Organ avenue. There are seven abutting streets, which would make a total equivalent to four and one-half intersections. The cost to the city is so small and the necessity of good streets in South Wayne so great that the board of works intimates that when the petition for the improvement is presented in regular form it will most likely be approved.

City Engineer Randall was not at his office this morning, still being confined to his home by a severe cold, contracted several days ago.

WATERWORKS BOARD TO MEET.

The bard of waterworks trustees this afternoon opened bids for the installation of an air compressor system to replace the leased plant which has been in operation during the past year or more. The bids were received pursuant to advertisements printed in the principal engineering journals during the past several months and in conformity with the action of the board and joint citizens' committee at the final meeting held last September. The specifications call for a compressor with a capacity of 1,500 cubic feet of free air per minute, operating against a sixty-pound water pressure and an eighty-pound steam pressure. A second bid is asked for on an apparatus to deliver 1,200 cubic feet of air per minute against the same several pressures.

SEEKS GAS FOR NEXT WINTER

FORT WAYNE COMPANY BEGINS DRILLING EARLY.

Seventy-five New Wells to be Drilled—First Completed Shows Rock Pressure of Sixty Pounds.

The Fort Wayne Gas company has already begun the search for a supply of natural gas for this city next winter. Instead of waiting until in June, as usual, to begin the drilling of new wells, the company is already at work, and the first completed well east of Hartford City shows a rock pressure of sixty pounds to the square inch. In the same field a few years ago the wells showed a pressure of 325 pounds, which serves to illustrate somewhat the difficulty in securing an abundance of the fuel at present.

Superintendent G. Max Huffman, of the Fort Wayne company, said this morning that it is the intention of the company to drill about seventy-five new wells during the coming summer and that three-fourths of the number will be sunk in Grant county. This is to some extent a new field—or, rather, an extension of the present field of the company. Mr. Huffman said it was impossible to forecast the outlook, but that every effort would be made to secure the most abundant gas supply now possible for this city. Extensive changes are also to be made at several of the pumping stations. Larger compressors are to be installed at Bluffton, and eight additional boilers are to be placed in the several pumping stations in the field.

DOG WAS NOT LARGE.

Mrs. Charles H. Sovine, of 65 West Superior street, received from a friend in Kendallville yesterday a pet dog weighing a pound and a half. The little animal is nearly two months old and attains its full growth in about seven months.

"Laff every time you feel tickled and laff once in a while anyhow"—says Josh Billings, but it is very hard work to "laff" with the pangs of rheumatism or neuralgia going through your body. The "laff" will come after you use Ath-lo-pho-ros. It works right on the uric acid in the blood, which causes the trouble of Rheumatism and Neuralgia, and a relief will be had with the first bottle. 80,000 people have testified that Rheumatism has been cured by Ath-lo-pho-ros. A book has been written by the Athlophoros Co., of New Haven, Conn., which treats on the subject of the causes and cure of rheumatism, and will be sent free on application. It will pay everyone to read it.

CHIEF OF TAMMANY IS BACK.

New York, March 7.—Lewis Nixon, leader of Tammany Hall, returned from the south yesterday greatly improved in health by his two weeks' stay in Florida. Chatting with a reporter at the Waldorf-Astoria last night Richard Croker's successor declared: "Democratic harmony all over the country is not mere idle talk. It is fast becoming a fact. The democrats have a good chance of carrying New York this fall for governor and other state officers. A democratic literary bureau similar to the one maintained by the republicans for many years at the Fifth avenue hotel will be established soon. This democratic activity will not be confined to the metropolis, but will be found in all parts of the state. Tammany will heartily support whoever is nominated for governor by the next state convention."

THE MARKETS.

Chicago, March 7.—Opening conditions in the wheat pit were again of the weather-making variety. Cables were firm and northwestern receipts were very small, but prospects of rain in the southwest started some early selling, which brought an opening for May ½c lower to unchanged at 76½c to 76⅝c. This selling soon ceased, however, and the crop scare made itself evident again for a time. Offerings were light and commission houses bought fairly. This started May on the advance and it sold to 76¾c. Dullness, however, kept the fluctuations narrow and May eased again to its opening prices. Local receipts were 11 cars, none of contract grade. Minneapolis and Duluth reported 177 cars, making a total for the three points of 188 cars, against 406 last week and 475 a year ago. Argentine shipments were 1,068,000 bushels compared to 1,608,000 bushels last year.

Reports of rains in Kansas, which were afterward contradicted, eased May wheat to 76⅝@76½c. Later a good export business developed, both here and at the seaboard, shorts covered and limited purchases were made. May sold up to 77⅜c and closed firm, ⅜c higher at 77¼c.

Small receipts and the momentary bulge in wheat effected a slight upturn in corn at the opening. Cables were indifferent, but Argentine shipments were small and commission houses bought. May opened a shade to ⅛@¼c up at 61¾c to 61⅞c and sold up to 62c. Locals began selling and May eased back to 61⅝@61¾c. Receipts were 102 cars.

Corn continued dull, but under the influence of the wheat bulge May sold to 62⅛c and closed firm, ⅜c higher at 62@62⅛c.

Oats opened dull with almost demand for May. July options started somewhat higher, but the crowd seemed to fight shy of May and the nearer option started ⅛c lower at 44c. Corn strength for a time helped and May gained ¼c. Fluctuations were very narrow and May hung about 44⅛c, yesterday's closing prices. Receipts were 101 cars.

Light receipts and better prices for hogs, the early corn strength and a good demand for pork started provisions with a strong tone. Locals bought well and prices advanced moderately. May pork opened 5c to 7½c up at $15.30 to $15.32½ and sold to $15.35; May lard 2½c higher at $9.40, and May ribs 5c advanced at $8.37½.

THE DAY ON WALL STREET.

New York, March 7.—There were fractional net gains at the opening in most stocks. Colorado Fuel and Colorado and Southern showed some evidence of realizing, the former selling at the opening at 97 to 98, compared with 96 last night and the latter declining nearly a point. General Electric, American Cotton Oil and Pacific Mail rose nearly a point.

Realizing in Colorado Fuel carried the price down five to 93. Tennessee Coal lost over a point in sympathy, but other metal stocks were fairly steady. The drop in Colorado Fuel represented dealings in the prominent railroads, but they showed no weakness. There were many bull movements under way in the minor stocks in which the high-priced stocks which were buoyant yesterday shared. Westinghouse Electric jumped 5¼, St. Paul and Omaha 4, Brooklyn Union Gas 3 and Chicago and Eastern Illinois, Northwestern, Consolidated Gas, Chicago, Great Western preferred A, Mexican National preferred, when issued, Chicago, Indianapolis and Louisville preferred, Delaware and Hudson, Rubber Goods, American Grass Twine and Virginia-Carolina Chemical from 1 to 3.

The apathy of the general market caused sales for both accounts in the trans-continental group, which sagged fractionally under yesterday's close and pulled other stocks down.

Reactions from the best in the specialties reached from 1 to 4 points in Northwestern, Westinghouse Electric, General Electric and Virginia-Carolina Chemical with the first named the chief sufferer. Near noon there was a rise of 2 points in Sugar, Manhattan and Brooklyn Transit, which produced some improvement in the railroad list. Colorado Fuel sold down to 92 and rallied feverishly, and American Car preferred lost a point. Colorado and Southern second preferred lost 1½, St. Paul and Omaha preferred gained 3 and Minneapolis and St. Louis and North American over a point.

Bonds were firm.

THE MONEY MARKET.

New York, March 7.—Money on call nominally at 2½@3 per cent; prime mercantile paper, 4@4¼ per cent; sterling exchange barely steady with actual business in bankers' bills at $4.87⅝@4.87⅞ for demand and at $4.85⅛@4.85⅜ for 60 days; posted rates, $4.86 and $4.88½; commercial bills, $4.84½@4.85½; bar silver, 54½c; Mexican dollars, 43½c.

NEW YORK MARKETS.

New York, March 7.—Flour—Receipts, 7,800 bbls; sales, 2,900 pkgs; market showed little change, but was steady.

Wheat—Receipts, 37,050 bu; sales, 685,000 bu; market opened steady and ruled slow all the forenoon without change. Cables were firm, but crop news bearish. May, 82¾@82⅞c; July, 82⅜@82⅝c; Sept., 82c.

Rye—Market quiet; state, 60@61c. c. i. f. New York car lots; No. 2 western, 65¾c, f. o. b. afloat.

Corn—Receipts, 22,000 bu; sales, 35,000 bu; market quiet and barely steady with moderate realizing a feature. May, 66⅞@67⅛c; July, 66@66⅛c.

RESEMBLES MOLINEUX CASE

MICHIGAN WOMAN POISONED BY HEADACHE POWDERS.

Package Came Through the Mail and She Used It—Other Persons Sick—A Lowell Mystery.

Grand Rapids, Mich., March 7.—Mrs. William Klumpp, wife of a laborer in Lowell, twenty miles east of here, died Sunday night from strychnine poisoning, and the case is surrounded by mystery which the sheriff has not yet penetrated. Mrs. Klumpp recently received a sample package of two headache powders bearing the label of the Flag Salt Remedy company, of Savanna, N. Y. The package bore a Lowell postmark and the address seemed to be in feminine hand. At the same time Mrs. Miller, living across the street, received a similar package.

Mrs. Klumpp was feeling sick Sunday and took one of the powders. When her husband came in he found her in convulsions on the floor and she died at 10 o'clock that night. Mrs. Miller, who helped to take care of her, was warned by Mrs. Klumpp not to take those sample headache powders, as she believed the one she had taken was the cause of her condition.

The remaining powder in the package, also those received by Mrs. Miller, were analyzed by a chemist here today and were found to consist mostly of strychnine.

Mrs. Klumpp was 20 years old and had been married nearly five years and no one knew that she had any enemies. Her husband, with whom her relations were happy, is 35 years old. She is his second wife. His first wife, divorced, lives in Lowell.

Several other families received sample packages of the headache powder and it is said one man took one of them and suffered severely from the effects.

The coroner's jury, which has been investigating the mysterious death of Mrs. Klump, today decided that she was murdered and rendered a verdict to that effect.

Officers are working on the mystery and endeavoring to locate the sender of the deadly powders. William Klump, the woman's husband, is under surveillance by the sheriff. It is said he had recently become interested in a woman in Grand Rapids.

WERE NEVER MORE PEACEFUL

CONDITIONS IN TWO PHILIPPINE PROVINCES.

Utterances by Hostile Natives are Not True, Declares Acting Governor Wright.

Manila, March 7.—Acting Governor Wright says that the Province of Morong and the entire Province of Rizal were never more peaceful than they are now and that the recent occurrences were entirely due to the influence of insurrectos who had been driven from Laguna and Batangas provinces.

The utterances of Senor Ampil, the former presidente of the town of Caintra, Morong, who was recently captured by insurgents, and subsequently escaped, are classed by Mr. Wright as being unreliable and as merely the remarks of a man half crazed with terror. The action of the band which captured Ampil was largely due to a personal vendetta. The constabulary have already dispersed the band and captured many arms, and have completely broken the power of Montalon, the old Ladrone chief, who, for years, was the terror of the province.

Mr. Wright feels satisfied from conversations which he has had with General Bell and others, that the insurrection is expiring.

IF YOU COUGH

You Should be Aware of More Serious Trouble.

We Will Tell You How To Cure That Dangerous Cough.

A cough is not much in itself, but if neglected it is extremely dangerous. We want to advise you to avoid getting coughs, or if you do how to get over them the easiest way.

Nearly always, as you undoubtedly know, a cough is accompanied by fever. Where fever exists the vital light of life is being consumed unnecessarily fast. We are all much the worse after such an attack. Then, too, that cough tears and irritates the delicate membrane of the throat and lungs, and when you have succeeded in healing it, you can again draw on your vitality, but the old scars are there and the next little exposure will bring back the trouble twice as bad as you experienced it before.

We are enthusiastic about Vinol and guarantee its action especially for coughs for it is a great tonic reconstructor. We do not know of anything better to build one up. There is nothing that will restore lost strength and energy, that will help the system ward off disease like Vinol. In Vinol is contained those active curative principles found in the liver of the cod, and we all know that cod liver oil was valuable for all bronchial and pulmonary troubles. Vinol contains all the curative elements of Cod Liver oil—yet contains no oil and is delicious to the taste. The following letter says:

"I had been suffering with a severe cough and cold for a number of weeks and having heard so much about your Vinol, as being a cure for such troubles, I decided to try a bottle. I have used two bottles and I can truthfully state that I am now entirely cured, and feel in better health than ever before in my life," J. M. Brown, 319 W. Mahanoy St., Mahanoy City, Pa.

We do not wish you to be misled by the fact that Vinol is delicious to take and therefore cannot be efficient. This is not the case. Were it so, we would not be as ready as we are to always refund the price of it to anyone who fails to find it all we claim it to be.

RIOT CASE HEARD

JUDGE LOUTTIT PRESIDES AT MIXED SESSION.

HEARS ARABS AND NEGROES

TESTIMONY TAKEN WITH THE HUSKS ON.

TRIAL IS LONG DRAWN OUT

VICTIM RELATES IN ARABIC HIS VERSION.

Job had boils and Lot finally wound up with a very ratty wife, while Solomon listened to curtain lectures 500 nights in a year from 500 wives and then never had to hear the dose repeated nor recognize a familiar voice, but all the troubles of those ancient

"THEY WERE ALL THERE."

mariners were as immaterial as the froth on the frothing bowl when compared to the troubles that hovered about and finally settled on the classic brow of Police Judge Louttit this morning. The troubles between the colored population and the Assyrian delegation employed at the Bass foundry, which came to a head last week Thursday, were again reviewed today by the perspiring judge. The court room looked like a Siamesian jubelfest on the day after all the prize winners had escaped with the money. It was certainly a dark day. The colored population was out in force and John Molten occupied a more or less prominent position in a retired spot, from where he watched the proceedings with keen interest. Moses Molten was also present, and although he did not show it, he was likewise much interested—in fact more interested than anybody else, because it was Moses Molten's signature to a bail bond of $1,000 that allowed the defendants in today's cases to enjoy their liberty during the past week. They were all there.

The case set was that of the state against Oswald Johnson for assault and batter on Salem Bander, which was partially tried last week—tried until the judge got his feet tangled in a lot of loose Arabic scattered around on the floor when the white flag was run up and an armistice was declared. This morning all the parties were in court and so was that eminent Arabian sheik, Hon. Philemon B. Colerick, who was employed to defend the Ethiopian section in the polyracial controversy. After an interchange of picture puzzles and linguistic crazy quilts it was found that neither side was ready for trial and that half the witnesses had not yet got around. Judge Louttit wiped something that looked like sweat from his brow and said he would continue the case until 10 o'clock or thereabouts and then he would try it even if he had to handcuff the reporters and muzzle the witnesses. At 10 o'clock it was decided to drop the assault and battery case against Johnson and proceed with another affidavit which charged Oswald Johnson, Frank Sanders, John Wilson and George Wilson with having created a riot. Abd Elfataah was the principal witness and J. A. Raisie acted as interpreter. Mr. Raisie is a nice, clean-looking young fellow who talks English like a dictionary and Arabic like a corn-sheller; he is intelligent all the way around, was thoroughly on to his job and as a human blotting pad he is about the best that was ever seen at the city hall. Abd Elfataah will be remembered as the gentleman who got mixed up with some iron bars in the hands of the negroes when the trouble started, and who was unable to be present at the first hearing of the case on account of the fact that he was still unconscious at that time. Abd was there though, this morning and there was considerable of him. His face was swollen to abnormal proportions on one side, while the side that was missed when the iron rods were whirling around was at low water mark. This gave him an amusing, if not an amused, appearance. Talking through a hole in Mr. Raisie's face he said that he remembered the occurrence very well up to a certain period. He was wheeling a barrow along the usual path in the foundry when somebody told him to move on one side; he did not move instantly, whereupon this person called him an ungentlemanly name; he talked back and then there was trouble. Somebody threw a brick at him which hit him on the arm and broke it—the brick, not the arm—he then picked up the two pieces of the broken brick and threw them at the first fellow; then the party of the first part, aided and abetted by sundry and divers other persons, attacked him with shovels and iron rods and things; he was hit three times on the neck and shoulders by five fellows who were wielding rods and shovels and then he turned his head to see who it was that was treating him so cruelly. He saw an iron rod about an inch in diameter sweeping toward his right eye and just then it appeared to him as though somebody blew out the gas; anyway he could not remember of anything that occurred after that for a day or two and he had a sort of an idea that perhaps somebody had torn a page out of the almanac. The next thing he had a distinct recollection of was that some kind friend was holding his head and applying arnica in quart doses at his room on Lafayette street. He pointed out the colored men whom he saw revolving around in the air as he was going to sleep, but he could not positively identify the one who was glued on to the leeward end of the bar when it struck him on the windward side. When asked to state specifically how the fight started he spilled over three volumes of gibberish on the floor and wound up, when closely questioned, by saying:

"Dyllerd spuls sick em smwa rpse dirit somathiskit; abdallah high ball xuche. Umpty poof dwllyd?"

"That's not what you said the other day," said Judge Louttit, as he mopped a pailfull of perspiration from his face, "and I want to tell you that you can't change your stories on me every day. I ain't much with a bow and arrow, but you'll have to shoot that kind of stuff from a faster gun than that if you expect to lose me. Call the next witness."

The next witness was Foreman Bob Cran, in whose department the alleged riot occurred. He was the first English-speaking witness heard in the case and his testimony was simply a relation of the fact that there was a fight, the origin of which he did not know, but he thought the results of the fight had been considerably exaggerated.

As The Sentinel goes to press the story is still being slowly unwound, with an occasional tangle in the yarn. At 3 o'clock five of the eighteen witnesses subpoenaed had been examined and the floor around the judge's desk was covered about three feet deep with hard language. Judge Louttit was sweating harder than he has ever sweated since he was a boy, while Sheik Colerick is growing feathers on the top of his head. The conclusion of the case is not looked for before tomorrow forenoon.

POLICE NOTES.

Special Officer Laughlin last night discovered a bicycle hanging on the fence in front of the high school building. He took it to the police station, where the owner can find it.

A rather handsome initial ring, found on the street, is at the police station curiosity shop, awaiting a claimant.

The barn of William Lerch, at 353 East Wayne street, was broken into Thursday morning and a lot of carpenter tools, such as saws, bits, screw drivers, etc., were taken. The thieves overlooked a lot of much more valuable tools which were in the barn and were evidently scared away before they had completed their investigations. The police have no clue.

Officers were this morning notified to keep a close watch on all hobos and to bring all to the station or else "shake them down" thoroughly if no excuse for arrest exists. Superintendent Gorsline was notified that a hardware store was robbed last night at Grover Hill, an Ohio station east on the Findlay road, and that the robbers, who were evidently hoboes, were supposed to be headed this way. Revolvers, knives, razors and other kinds of cutlery, as well as cartridges, were stolen. Any tramp found with new cutlery of any description on his person in these diggings during the next week or two will have a hard time of it.

The fire box at the corner of Coombs and Liberty streets was broken again last night.

The police are trying to locate an unknown brute, who is guilty of shamelessly exposing his person to little school girls residing in the west end, to which section his operations seem to be confined. Complaints have been made for several weeks, but no definable description of the fellow has yet been obtained.

Eugene George, employed at Martin's livery stable, reports the theft of a pair of pants from his room while he was sleeping. Mr. George says he would not have a kick coming if someone had stolen the washstand or the carpet or the wall paper, but circumstances cause him to draw the line on pants. Some people have two pairs of pants, but there are others.

Superintendent Gorsline this morning received a letter from Acting Superintendent Evans, of the national bureau of identification at Washington, acknowledging the receipt of a number of pictures and measurements and notifying the local officer that within a few days he would be favored with a collection of photographs of the best crooks in the country—meaning, of course, the worst.

DEATH'S RECORD OF THE DAY

MRS. THERESE WIEBMER SUCCUMBS TO JAUNDICE.

Jerry Foley Expires After Years of Illness—Other Deaths and Funeral Notices.

Mrs. Therese Wiebmer, widow of the late William Wiebmer, died at 12:30 o'clock this afternoon at her home, 618 Huffman street, from yellow jaundice, at the age of 59 years.

Mrs. Wiebmer was born in Gros Eslinger, Wuertemberg, Germany, and was a sister of the late Mr. Beck, who died at his home on Wilt street. Surviving are six children—Freda, Paula, Mathilda and Elsie, at home, and Anton and Henry Wiebmer residing at Quincy, Ill.

The remains will be shipped to Quincy for interment at a time to be announced later.

FOLEY.

Jerry Foley died Thursday afternoon at St. Rochus' hospital, after an extended illness from tuberculosis. Mr. Foley was 38 years of age and for the past four years had been receiving treatment at St. Joseph's and St. Rochus' hospitals. He was a native of Ireland, but had resided in this city many years. His mother died about one year ago and the young man was the last of the immediate family, though other relatives reside in this city.

Funeral services will be held Saturday morning at 9 o'clock from St. Patrick's church.

HARRIES.

The infant child of Mr. and Mrs. William G. Harries, residing at 6 Locust street, died Wednesday evening from exhaustion. Funeral services will be held Saturday at 2 o'clock from the residence, Rev. J. H. Bosch officiating.

WOLFORD.

Gladys Gale Wolford, an inmate at the Indiana School for Feeble Minded Youth, is dead from pressure of fluid upon the brain. Her age was 9 years, 11 months and 12 days.

The remains were shipped to Bourbon today.

DAVIS.

Luchida Davis, 18 years of age, an inmate of the Indiana School for Feeble Minded Youth, is dead from pulmonary tuberculosis. The girl was born at Crawfordsville.

FUNERAL ANNOUNCEMENTS.

Langard.—Funeral services of John Langard will be held Monday morning at 8:30 from the residence, and at 9 o'clock from the Cathedral.

Armel.—Funeral services of William Armel will be held from the residence, 44 West Third street, Saturday morning, at 10 o'clock, Rev. Field officiating. The interment will be at Huntertown.

IN JUSTICES' COURTS.

Constable Bagby was at Woodburn this morning, where he arrested a Shirley City youth by the name of George Miller, who is now in jail in default of a bail bond of $300. George is about 27 and Miss Olive Fleeson confesses to 22 summers, and also confesses that she and George were unduly intimate, for which she now seeks redress. Paternity proceedings have been instituted and the hearing is set for tomorrow in Tancey's court. Meanwhile the relatrix has sent word to the justice that she proposes to dismiss the proceedings, which the court will not agree to until all necessary formalities have been complied with.

In Bullermann's court this afternoon a commission will inquire into the sanity of Edward Norwek, living on the corner of Pontiac and John streets. Dr. J. E. Miller is the attending physician and Doctors Merz and Carl Schilling are the examining physicians.

LOCAL LINES.

The regular monthly business meeting of the English Lutheran church of the Redeemer will be held in the church this evening at 7:30.

Miss Nellie Price, of East Creighton avenue, was very pleasantly surprised by a number of her schoolmates last evening, in celebration of her 14th birthday anniversary.

Mr. and Mrs. James Palmer were delightfully surprised by a party of friends at their home on East Leith street, last evening. Mrs. J. Offner and Frank Offner won first prizes at cards and the consolations were awarded to Miss M. Colican and L. Neff.

Mr. and Mrs. C. O. Lepper entertained a company of friends at progressive pedro last evening at their home, 230 West Jefferson street. First prizes were won by Mrs. Gust Rogge and C. Neiheiter and the second prizes were won by Mrs. A. Miller and Gust Rogge. Luncheon was served at 12 o'clock. Mrs. Carrie Kutter contributed greatly to the pleasure of the evening by giving a number of piano selections.

Kodol Digests what you Eat

Dyspepsia Cure

You need all kinds of food to maintain the body. Curtail this variety and some organ is underfed. It is for this reason that a diet is injurious. If you cannot digest good food your stomach is out of order and needs rest. You cannot go without food for that would mean starvation. Kodol Dyspepsia Cure will digest what you eat without the stomach's aid. Take it and you can rest your stomach without interrupting digestion. It is nature's own remedy. Never fails. Anderson Riggs, Sunny Lane, Tex., says: "I was troubled with indigestion ten years and tried many things and spent much money until I tried Kodol Dyspepsia Cure. I am now feeling better than in five years and more like a boy than in twenty."

Dying Man Turned Away!

THERE WAS NO ROOM IN A HOSPITAL FOR DENNIS KENNY, A CONSUMPTIVE.

NEW YORK.—Dennis Kenny, homeless, was found unconscious on the sidewalk at 44th Street and 1st Avenue on Thursday night. An ambulance surgeon from Flower Hospital said that the man was dying of consumption. He was taken to Bellevue and on Friday was sent to the Metropolitan Hospital on Blackwell's Island.

Last night Kenny was found unconscious in the street again. When he was revived in the police station he said that the people on The Island had told him that they had no room for him in the hospital and had brought him back to the city. Dr. Stewart, of Flower Hospital said it was a shame that Kenny had been turned out of the hospital as death was only a matter of a few days in his case. Kenny was taken to Bellevue again.

Dr. Bickley, the acting superintendent of the Metropolitan Hospital, when asked about Kenny's case over the telephone, said:

"Kenny was placed in the consumption ward, which is terribly overcrowded. They are sleeping on the floor there and we can only keep those who are unable to walk or move about. Kenny was a very sick man and it was a shame to let him go; but he was stronger than some of the others and so we had to leave him out. We couldn't put him in another ward, as it would be a crime to put a consumptive in a regular ward. *The whole city seems to be full of consumption and we are so overcrowded here that a terrible condition of affairs exists.*"

Figures are strangely inadequate to convey to the mind some of the most appalling facts of civilization. We are told that 60,000 people die annually of consumption. But the statement hardly touches us. It is too great. It covers too much territory. But when we read a story like the above, cramped into a few lines, dealing with only one man's case, and yet revealing a "whole city full of consumption," we see as under the glare of a search-light the appalling ravages of the "destruction that wasteth at noonday." Almost every hamlet and village has its victims of this scourge of civilization and towns and cities number their consumptives by scores and by hundreds.

HOW TO AVOID CONSUMPTION.

The one sure way to avoid consumption is to instantly arrest the conditions which tend toward it. If you have a cough cure it. If your lungs are weak make them strong. You can do this by the use of Dr. Pierce's Golden Medical Discovery.

"For one year I was troubled with a cough," writes Mr. H. E. Curtis, of Sumner, Bremer Co., Iowa. "As I continued to cough during the summer, my wife became anxious, and wrote to Dr. R. V. Pierce, for medical advice. It seemed to us that we could not go to a better source for advice, and so it proved, as the 'Golden Medical Discovery' which was recommended proved just the medicine to effect a cure. Dr. Pierce and his medicines are 'As good as the wheat,' as the farmers used to say."

"Your medicine is the best I have ever taken," writes Mrs. Jennie Dingman, of Rapid City, Kalkaska Co., Mich. "Last spring I had a cough; got so bad I had to be in bed all the time. My husband thought I had consumption. He wanted me to get a doctor, but thought we would try Dr. Pierce's Golden Medical Discovery and before I had taken one bottle the cough stopped and I have since had no signs of its returning."

"BETTER LATE THAN NEVER."

Better use Dr. Pierce's Golden Medical Discovery late than not at all. It may be too late to cure. It can't be too late to try, and the evidence of the people who have been cured shows that no man dare shut the door of hope in the face of any one with the words "too late." Why not? Because people given up by doctors have been cured by "Golden Medical Discovery." Because people emaciated, weak with tearing coughs and bleeding lungs, have been perfectly and permanently cured by the use of "Golden Medical Discovery."

"Last spring I was taken with severe pains in my chest, and was so weak I could hardly walk about the house," says Mrs. G. E. Kerr, of Fort Dodge, Webster Co., Iowa. "I tried several physicians and they told me I had consumption. I heard of Dr. Pierce's Golden Medical Discovery and thought I would try some of it. Before I had taken the first bottle I was very much better; I took five bottles of it and have not yet had any return of the trouble."

"My wife had hemorrhage of the lungs," writes W. A. Sanders, of Hern, Mason Co., W. Va. "She had ten hemorrhages, and the people all around here said she would never be well again. But she began to take Dr. Pierce's Golden Medical Discovery and she soon began to gain strength and flesh. After taking ten bottles she was *entirely well.* Should you think this will do any good to publish, just use it, and if anyone disputes the merits of this almost omnipotent medicine they may enclose self-addressed envelope with stamp, and I will answer, the same as written in this letter."

IT IS WONDERFUL

To read of such cures. But it is just as true as it is wonderful that such cures have been effected in hundreds of cases by the use of Dr. Pierce's Golden Medical Discovery. Like many of other wonderful things these cures are achieved by getting into line with nature and assisting her. What is the chief cause of physical weakness? Lack of nutrition. You know that a starving man is weak. He can't work, or only in a feeble way. You know if the body is not fed it falls away and grows weak. But when you speak of the body you include all the organs which compose it—heart, liver, lungs, kidneys, etc., for these make the body. A body weakened by starvation then, means lungs weakened, heart weakened, liver weakened, etc. How would you restore the strength of a man, weak from starvation? Why feed him. There's no other way. How would you restore the strength to "weak" lungs? By food. The doctor will say, "Eat plenty of nutritious food," and he'll add a tonic to stimulate the appetite. But suppose the stomach is "weak" and can't convert the food into nutrition? Then the doctor counsels Cod Liver Oil or its emulsions to humor the weak stomach. The point is that he knows the one need is food. He knows that food doesn't nourish unless properly digested and assimilated. Yet he does nothing to cure the weak stomach.

Behind weak lungs is a weak stomach, and the first step to a cure is to make the stomach and its allied organs of digestion and nutrition strong, so that the food eaten can be perfectly digested and its nutrition assimilated. When this is done flesh is gained instead of lost, and the man or woman who is gaining in flesh has no fear of dying of consumption, the very sign of which is wasting of the flesh and weakening of the body.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. In this way the body is enabled to receive its proper nutrition and to be made strong in the only way possible—by the perfect digestion and assimilation of food.

There is no alcohol in "Golden Medical Discovery," and it is entirely free from opium, cocaine and all other narcotics.

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

Eternal vigilance is the price of a beautiful complexion when such remedies are relied on.

Mr. H. T. Shobe, 2704 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disfiguring eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. S., and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old, and not a sign of the embarrassing disease has ever returned."

S. S. S. is a positive, unfailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes bad complexions.

SSS purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

A FOOT CRUSHED

PHILIP HABIG FALLS BENEATH CAR WHEELS.

WAS RIDING TO HIS WORK

ACCIDENT HAPPENED NEAR COTTAGE STREET.

FOUNDRY WORKMAN IS BACK

FOUND STRIKE IN PROGRESS AT BELOIT FOUNDRY.

Philip H. Habig, sixteen years old and the son of August Habig, of 296 Buchanan street, fell in alighting from a gondola car in Pennsylvania freight train No. 329 at a point 1,500 feet west of Cottage street, at 6:15 o'clock this morning, and had his left foot crushed beneath the wheels. Conductor U. G. Dragoo, who had charge of the train, witnessed the lad's fall and he stopped his train, picked the unfortunate boy up and took him to Calhoun street, where he was placed in the city ambulance and taken to St. Joseph hospital. There Dr. Stemen attended the sufferer, amputating all the toes but the great one and taking off a portion of the outer side of the left foot. The lad also sustained some cuts and bruises on the head, the most serious being above the right eye, where there is a gash about two inches long. Philip has been employed at the Wayne Knitting mills for some time and he was en route to that factory when he met with the accident. As he reached the Hanna street crossing the train came along at a slow speed and Philip got aboard one of the cars. He carried a lunch basket and in getting down upon the side of the car preparatory to jumping off west of Cottage street, the basket slipped from his hand. He made a grab for it and this caused him to loose his hold on the car and he fell. The spot where the accident occurred is not greatly frequented at that hour of the day and it was very fortunate for the lad that the trainmen witnessed his fall. Otherwise he might have lain there an hour or two before being discovered. Dr. Stemen believes the lad will get well, the injuries on his head not being of a serious character.

WRECK CAR HEADQUARTERS.

The Wabash company has found it advisable to make this city headquarters for one of its wreck cars and crew and the car that had been stationed at Lafayette was brought here yesterday and now stands on one of the spur tracks at the carpenter shops. O. L. Riggle, an experienced derrick car manager, also arrived in the city last night and is now looking for a house with a view of moving his family here from Peru.

TRANSFERING ENGINES.

The new engines of the Nickel Plate have "got their bearings" and are now doing good service on the Fourth district, taking the places of twelve class I and class J engines. The latter have been transferred to the Third district and in turn will release some lighter engines, which will be used elsewhere. The engines transferred are Nos. 89, 90, 94, 95, 96, 97, 98, 101, 102, 103, 104 and 105. Class I engines 91 and 92, which have been equipped for fast freight and passenger service, as necessity may require, will remain on the Fourth district.

TO ENTERTAIN GRAND OFFICER

Friendship lodge No. 70, International Association of Machinists, will have as a guest Tuesday one of the grand officers, George Mulberry, of Chicago, and it is proposed to give him a reception at the hall on that evening. The lodge will hold a special meeting this evening to arrange for the reception and it is the wish of the local officers that every member who can do so will be in attendance. Mr. Mulberry is the grand organizer of the international association.

GLAD TO GET BACK.

William Brinkman and thirteen others, mostly from the Bass foundry, left this city less than two weeks ago for Beloit, Wis., with the intention of working in the foundry of the Fairbanks & Morris company. They were furnished with transportation and their expenses en route were defrayed by the Beloit foundry people, and the men figured that even if they found matters not to their liking in Wisconsin, they would not "be out much" if they did not stay there. When they arrived at Beloit they found the moulders and helpers on a strike and the Fort Wayne party refused to go to work until the labor difficulties were adjusted. William Brinkman immediately returned to Fort Wayne and this morning resumed his old place in Foreman Pliett's department at the Bass foundry. From him a Sentinel reporter learned that the other members of the party remained in Beloit, the foundry company promising to pay their board in the meantime and to give them employment as soon as the strike ends. From this it is believed that the foundry people intend to dismiss a portion at least of the strikers and to fill their places from the ranks of the newcomers. Mr. Brinkman is reticent concerning the situation at Beloit, but in reply to the inquiry "Is Beloit a better place for laborers than Fort Wayne?" he smiled as he said: "Fort Wayne and the Bass foundry are good enough for me and I think I will remain here." The Sentinel predicts the return of Mr. Brinkman's traveling companions and only hopes that the men will be as successful in finding employment with their old employers as has Mr. Brinkman. Mr. Brinkman's experience is only a repetition of that of hundreds of others who left Fort Wayne under similar circumstances. Let this be a lesson to others who may have a change under consideration. The Sentinel believes there is no better labor market than Fort Wayne, all things considered. Wages may be a little higher some places, but it will be found that the cost of living is also greater and this more than offsets the increased earnings.

CHANGES ON THE C., H. & D.

Some changes in the passenger department of the Cincinnati, Hamilton and Dayton road will take place March 15. Concerning this matter the Enquirer says: "H. J. Sugru, who is now chief rate clerk, goes to Findlay as traveling passenger agent. He will be succeeded here by T. H. Gurney, who is division clerk. A. Foelger will be promoted to succeed Mr. Gurney and Albert Jansing is moved up to succeed Mr. Foelger.

FIREMAN INJURED.

Passenger Fireman J. F. Magers, of the Pittsburg, received an ugly gash in his scalp last night by falling on the coal in the tender of his engine. The engine had cut loose from No. 11 and Mr. Magers had fastened a red lantern on the rear of the tank and was passing back to the cab while the engine was making its way to the coal docks, when he fell with the result mentioned. He will be off duty a few days.

WORTHY MAN PROMOTED.

Charles H. Miller, one of the old employes at the works and an expert in his line, has received just recognition at the hands of Superintendent A. E. Barnes. Mr. Miller is a polisher at the Fort Wayne Electric works and this morning he was appointed foreman of the department where small articles are polished. The announcement was received with pleasure by the factory associates of Mr. Miller, with whom he is a great favorite.

WILL BE A HYBRID.

The Bluffton News claims to have the authority for the statement that the Clover Leaf company is planning to equip the division of the road between Delphos and Frankfort with electric power and running passenger cars over the line at short intervals the same as other interurban lines. The move, it is said, is being considered with a view to cutting off expected competition from other lines that may be built and it is believed that if the step can be taken before other companies get into the field it will effectually shut out such competition. The division can be equipped for electric power much cheaper than a new road can be built. The division is 125 miles long and all that would be necessary would be to string poles and wire, erect the power house and put on the cars. The roadbed, bridges and track are there. The line would connect the oil fields of Ohio and Indiana and be located in territory where the Clover Leaf's local travel is best. The new equipment would not interfere with the steam trains now in use and freight and through passenger traffic would be handled as at present."

CHANGE OF MEETING TIME.

The Railway and Shopmen's Protective association has some important matters to discuss that require immediate attention and the meeting appointed for Sunday, March 16, will be held next Sunday afternoon instead.

PENNSYLVANIA PAY CAR.

Notices of the coming of the Pennsylvania pay car were posted at the shops yesterday. The car will arrive here on Tuesday evening, March 18, and will leave on Thursday morning, March 20. Wednesday will be pay day proper at the shops.

FACTORY INSPECTOR HERE.

Thomas Williamson, deputy state factory inspector, is in the city on his regular inspection tour and was a caller at the Pitteburg shops yesterday. Mr. Williamson is an old friend of Assistant Foreman John Leach, of the boiler shop, and they had an "old time" chat yesterday. Both are officials in the Order of St. George and have met at the conventions of the order for several years past.

INDUSTRIAL NOTES.

Pittsburg Engineer W. Kahoe is sick and off duty.

W. F. Simmons has taken a position in the Wabash shops.

Pittsburg Firemen G. Beilley, who had been sick, reported for work this morning.

A. S. Mead, fuel inspector for the eastern division of the Wabash, was in the city yesterday.

Conductor Bert Cowdrey, who had been sick, reported for work on the Nickel Plate yesterday.

Patrick Lanigan has been temporarily transferred from the shop gate to the Pennsylvania crossing gates at Calhoun street.

President M. D. Woodford, of the Cincinnati, Hamilton and Dayton, and his family, have gone to Florida to remain until April 1.

W. Fetters and H. W. Ireland are sick and Fred Schultz is off duty on acount of the sickness of his wife. They are Pittsburg shopmen.

Round House Machinist Edward Tierney, of the Pittsburg, reported for work this morning, after a short absence on account of sickness.

H. W. Bradtmiller has resigned as night clerk at the Pittsburg round house and C. C. Bohen, night caller, has been advanced to that position.

Work on reducing grades on the Panhandle's Chicago division at Marion and laying a second track on that division will be resumed on Monday.

Hershall Mauk, tinner at the Pittsburg shops, is off duty on account of the sickness of his father, F. M. Mauk, the veteran Pennsylvania passenger conductor.

Motive Power Superintendent D. F. Crawford, Chief Clerk Frank Reed and Chief Car Inspector W. W. Todd left last night for Pittsburg on business for the Pennsylvania company.

Chief Car Inspector E. J. Preston, of the Wabash, has added the name of John Connelly to his list of car inspectors, the new man formerly being in the employ of the Pennsylvania.

Stuart Behrer returned home after a trip out in the interest of the Fort Wayne Electric company. Ed Hughes, a machinist, who was sick, resumed his duties at the works this morning.

Harry McClure, who has been temporarily employed in the clerical force at the Wabash shops, will return to his old position tomorrow, that of apprentice in the mechanical department.

The engine output at the back shops of the Pittsburg for the present week was as follows: Nos. 57, 286, 134, 246, 332 and 100, the latter being one of the large class E-2 passenger locomotives.

Indianapolis Journal: "The Panhandle having received a number of new engines is returning those borrowed from one of the Duluth roads and others from the Pittsburg, Fort Wayne and Chicago."

W. D. Lenenger, a Nickel Plate brakeman, is a witness in a law suit at Newark, Ohio, wherein the Toledo and Ohio Central road is the plaintiff. Mr. Lenenger formerly worked on that road.

After a two weeks' service at the Pittsburg boiler shop, William Callihan has severed his connection with that establishment to take employment elsewhere. He does not contemplate removal from the city.

P. A. Randall left yesterday upon an eastern tour in the interest of Smith & Randall, lumber dealers. Mr. Randall will visit Philadelphia, New York, Boston and other cities, where customers of the firm reside.

The Guerin bill, which provides for the settlement of railway crossing disputes in the common pleas court, when the railway companies can not come to a settlement, has passed the Ohio house of representatives.

Mr. and Mrs. James Kilpatrick left this morning for Detroit, where the lady will consult a specialist concerning a malady that has afflicted her for several years. Mr. Kilpatrick recently resigned a position with the Wabash.

Michael Egan has brought suit against the Nickel Plate, demanding $20,000 damages for alleged permanent disability, the result of blood poisoning. Egan, who was an engine hostler at Bellevue, had his hand injured while working for the company. The suit has been brought in the Huron county courts.

Yesterday the Fort Wayne Electric works sent a carload of machinery to New Berne, N. C., where the company will install a municipal plant. The consignment included a 1,500-light incandesent and a 100-light arc dynamo and the necessary equipment material; also sixty-two of Mr. Wood's new style lamps. Tomorrow the company will send out several other machines, included being a big "booster" for an electric line in Mexico.

Some capitalists at Kokomo and the Lake Erie and Western railway have organized a company for the construction of a "belt railway" to open a number of factory sites. The company will build one and three-quarter miles of track and will endeavor to locate factories along the line.

The Lima Locomotive works has let the contract for the construction of new shops at Lima, Ohio. Moen Brothers were the successful bidders. It is the intention of the locomotive company to place the finest and most modern machinery in the shops and make them up-to-date in every particular.

The Peru Journal urges Peru citizens to purchase the Chili road, recently a part of the Eel River branch of the Wabash, and make an electric line of it. The property is nine miles long and it belongs to the Wabash company. As its owner has no apparent use for it, it is presumed that the property is for sale.

The map attached to the Wabash folder for Pittsburg, gives all the lines in the Gould system, making up a grand total of 15,000 miles. The general passenger department has issued a very handsome brochure calling attention, with illustrations and reading matter, to the early completion of the line into Pittsburg. It is in the form of a greeting to the people of Pittsburg. The new passenger and freight office has been opened in Pittsburg at 320 Fifth avenue.

"Laff every time you feel tickled and laff once in a while anyhow"—says Josh Billings, but it is very hard work to "laff" with the pangs of rheumatism or neuralgia going through your body. The "laff" will come after you use Ath-lo-pho-ros. It works right on the uric acid in the blood, which causes the trouble of Rheumatism and Neuralgia, and a relief will be had with the first bottle. 50,000 people have testified that Rheumatism has been cured by Ath-lo-pho-ros. A book has been written by the Athlophoros Co., of New Haven, Conn., which treats on the subject of the causes and cure of rheumatism, and will be sent free on application. It will pay everyone to read it.

CHIEF OF TAMMANY IS BACK.

New York, March 7.—Lewis Nixon, leader of Tammany Hall, returned from the south yesterday greatly improved in health by his two weeks' stay in Florida. Chatting with a reporter at the Waldorf-Astoria last night Richard Croker's successor declared: "Democratic harmony all over the country is not mere idle talk. It is fast becoming a fact. The democrats have a good chance of carrying New York this fall for governor and other state officers. A democratic literary bureau similar to the one maintained by the republicans for many years at the Fifth avenue hotel will be established soon. This democratic activity will not be confined to the metropolis, but will be found in all parts of the state. Tammany will heartily support whoever is nominated for governor by the next state convention."

THE MARKETS.

Chicago, March 7.—Opening conditions in the wheat pit were again of the weather-making variety. Cables were firm and northwestern receipts were very small, but prospects of rain in the southwest started some early selling, which brought an opening for May ¼c lower to unchanged at 76¾c to 76⅞c. This selling soon ceased, however, and the crop scare made itself evident again for a time. Offerings were light and commission houses bought fairly. This started May on the advance and it sold to 76¾c. Dullness, however, kept the fluctuations narrow and May eased again to its opening prices. Local receipts were 11 cars, none of contract grade. Minneapolis and Duluth reported 177 cars, making a total for the three points of 188 cars, against 406 last week and 475 a year ago. Argentine shipments were 1,068,000 bushels compared to 1,608,000 bushels last year.

Reports of rains in Kansas, which were afterward contradicted, eased May wheat to 76⅛@76⅜c. Later a good export business developed, both here and at the seaboard, shorts covered and limited purchases were made. May sold up to 77⅛c and closed firm, ⅜c higher at 77¼c.

Small receipts and the momentary bulge in wheat effected a slight upturn in corn at the opening. Cables were indifferent, but Argentine shipments were small and commission houses bought. May opened a shade to ⅛@¼c up at 61⅝c to 61⅞c and sold up to 62c. Locals began selling and May eased back to 61⅝@61¾c. Receipts were 102 cars.

Corn continued dull, but under the influence of the wheat bulge May sold to 62¼c and closed firm, ⅜c higher at 62@62⅛c.

Oats opened dull with almost demand for May. July options started somewhat higher, but the crowd seemed to fight shy of May and the nearer option started ⅛c lower at 44c. Corn strength for a time helped and May gained ¼c. Fluctuations were very narrow and May hung about 44⅛c, yesterday's closing prices. Receipts were 101 cars.

Light receipts and better prices for hogs, the early corn strength and a good demand for pork started provisions with a strong tone. Locals bought well and prices advanced moderately. May pork opened 5c to 7½c up at $15.30 to $15.32½ and sold to $15.35; May lard 2½c higher at $9.40, and May ribs 5c advanced at $8.37½.

THE CLOSE.

Prices at the close were as follows:

Wheat—March, 75¼c; May, 77¼c; July, 77⅜@77¾c; Sept., 77@77⅛c.

Corn—March, 60¼c; May, 62@62⅛c; July, 61¾c; Sept., 59¾c; Dec., 48⅝c.

Oats—March, 43½c; May, 44⅛c; July, 35⅝@35¾c; Sept., 30⅝c.

Pork—March, $15.20; May, $15.40; July, $15.57½.

Lard—March, $9.30; May, $9.42½; July, $9.55; Sept., $9.67½.

Ribs—March, $8.30; May, $8.57½@8.40; July, $8.50@8.52½; Sept., $8.62½.

Flax—Cash N. W., $1.71; S. W., $1.68; May, $1.72.

Rye—March, 57c; May, 58@58¼c; July, 58@58¼c.

Barley—Cash, 58@63c.

Timothy—March, $6.60.

Clover—March, $8.25.

CHICAGO LIVE STOCK.

Chicago, March 7.—Cattle—Receipts, 2,500; market steady. Good to prime steers, $6.50@6.90; poor to medium, $4.00@6.30; stockers and feeders, $2.25@5.00; cows, $1.25@5.25; heifers, $2.50@5.50; canners, $1.25@2.25; bulls, $2.25@4.85; calves, $2.50@6.60; Texas fed steers, $4.50@5.90.

Hogs—Receipts today, 26,000; left over, 2,990; market 10@15c higher. Mixed and butchers, $5.95@6.45; good to choice heavy, $6.35@6.55; rough heavy, $5.95@6.25; light, $5.85@6.10; bulk of sales, $6.05@6.35.

Sheep—Receipts, 5,000; market steady; lambs slow. Good to choice wethers, $4.65@5.25; fair to choice mixed, $3.75@4.50; native lambs, $3.75@6.45.

BUTTER, CHEESE AND EGGS.

Chicago, March 7.—Butter—Market easier; creameries, 18@26c; dairies, 18@23c.

Cheese—Market steady; twins, 10¾@11c; daisies, 11¼@11½c; young Americas, 12@12½c.

Eggs—Market weak, 18½c.

THE DAY ON WALL STREET.

New York, March 7.—There were fractional net gains at the opening in most stocks. Colorado Fuel and Colorado and Southern showed some evidence of realizing, the former selling at the opening at 97 to 98, compared with 98 last night and the latter declining nearly a point. General Electric, American Cotton Oil and Pacific Mail rose nearly a point.

Realizing in Colorado Fuel carried the price down five to 93. Tennessee Coal lost over a point in sympathy, but other metal stocks were fairly steady. The drop in Colorado Fuel repressed dealings in the prominent railroads, but they showed no weakness. There were many bull movements under way in the minor stocks in which the high-priced stocks which were buoyant yesterday shared. Westinghouse Electric jumped 5½, St. Paul and Omaha 4, Brooklyn Union Gas 3 and Chicago and Eastern Illinois, Northwestern, Consolidated Gas, Chicago, Great Western preferred A, Mexican National preferred, when issued, Chicago, Indianapolis and Louisville preferred, Delaware and Hudson, Rubber Goods, American Grass Twine and Virginia-Carolina Chemical from 1 to 3.

The apathy of the general market caused sales for both accounts in the trans-continental group, which sagged fractionally under yesterday's close and pulled other stocks down.

Reactions from the best in the specialties reached from 1 to 4 points in Northwestern, Westinghouse Electric, General Electric and Virginia-Carolina Chemical with the first named the chief sufferer. Near noon there was a rise of 2 points in Sugar, Manhattan and Brooklyn Transit, which produced some improvement in the railroad list. Colorado Fuel sold down to 92 and rallied feverishly, and American Car preferred lost a point. Colorado and Southern second preferred lost 1½, St. Paul and Omaha preferred gained 3 and Minneapolis and St. Louis and North American over a point.

Bonds were firm.

RESEMBLES MOLINEUX CASE

MICHIGAN WOMAN POISONED BY HEADACHE POWDERS.

Package Came Through the Mail and She Used It—Other Persons Sick —A Lowell Mystery.

Grand Rapids, Mich., March 7.—Mrs. William Klumpp, wife of a laborer in Lowell, twenty miles east of here, died Sunday night from strychnine poisoning, and the case is surrounded by mystery which the sheriff has not yet penetrated. Mrs. Klumpp recently received a sample package of two headache powders bearing the label of the Flag Salt Remedy company, of Savanna, N. Y. The package bore a Lowell postmark and the address seemed to be in feminine hand. At the same time Mrs. Miller, living across the street, received a similar package.

Mrs. Klumpp was feeling sick Sunday and took one of the powders. When her husband came in he found her in convulsions on the floor and she died at 10 o'clock that night. Mrs. Miller, who helped to take care of her, was warned by Mrs. Klumpp not to take those sample headache powders, as she believed the one she had taken was the cause of her condition.

The remaining powder in the package, also those received by Mrs. Miller, were analyzed by a chemist here today and were found to consist mostly of strychnine.

Mrs. Klumpp was 20 years old and had been married nearly five years and no one knew that she had any enemies. Her husband, with whom her relations were happy, is 35 years old. She is his second wife. His first wife, divorced, lives in Lowell.

Several other families received sample packages of the headache powder and it is said one man took one of them and suffered severely from the effects.

The coroner's jury, which has been investigating the mysterious death of Mrs. Klump, today decided that she was murdered and rendered a verdict to that effect.

Officers are working on the mystery and endeavoring to locate the sender of the deadly powders. William Klump, the woman's husband, is under surveillance by the sheriff. It is said he had recently become interested in a woman in Grand Rapids.

WERE NEVER MORE PEACEFUL

CONDITIONS IN TWO PHILIPPINE PROVINCES.

Utterances by Hostile Natives are Not True, Declares Acting Governor Wright.

Manila, March 7.—Acting Governor Wright says that the Province of Morong and the entire Province of Rizal were never more peaceful than they are now and that the recent occurrences were entirely due to the influence of insurrectos who had been driven from Laguna and Batangas provinces.

The utterances of Senor Ampil, the former presidente of the town of Cainta, Morong, who was recently captured by insurgents, and subsequently escaped, are classed by Mr. Wright as being unreliable and as merely the remarks of a man half crazed with terror. The action of the band which captured Ampil was largely due to a personal vendetta. The constabulary have already dispersed the band and captured many arms, and have completely broken the power of Montalon, the old Ladrone chief, who, for years, was the terror of the province.

Mr. Wright feels satisfied from conversations which he has had with General Bell and others, that the insurrection is expiring.

Yama-mai

Pronounced yah-mah-my.

When silken linings first were worn
Dame Fashion heaved a weary sigh;
How could this new expense be borne?
Just then there was no YAMA-MAI.

But soon man's active brain produced
A silken cloth with luster high;
The price of silk he much reduced
By making far-famed YAMA-MIA.

Now, when Dame Fashion goes to shop,
On silken linings bent to buy,
Her steps are always sure to stop
Where silk is sold called YAMA-MIA.

See that the name YAMA-MAI is on the selvedge of every yard. Something sold to you, which is said to be "just as good," will not make your new gown the success it ought to be. A glance at the name on the selvedge protects you against imitation. THAT'S WHY we put it there.

SOLD BY AMERICA'S GREATEST MERCHANTS.
Known to the trade as the SWIFT SELLING SILK.

CRITICISES KING EDWARD

REV. JOSEPH PARKER USES VIGOROUS LANGUAGE.

Calls His Majesty Publicly to Time for Brewing Beer and Attending Sunday Concert.

London, March 7.—There was a striking scene in the City temple yesterday when, during the course of his sermon, Rev. Joseph Parker, D. D., the minister, administered a pointed rebuke to King Edward, which was loudly applauded by the congregation. Having alluded to public houses as "trap doors of hell," Dr. Parker referred to the king's recent brewing of beer while visiting Lord Burton.

"Pray for me," said the divine, "that I may speak delicately, loyally. If the king brews beer, what can be wrong in the subject drinking? What the king does is likely to be imitated by others. His majesty is more than a man and must regard all questions from a kingly point of view. If the king goes to a Sunday concert, as he did recently, he deals a deadly blow to the Englishman's Sunday. The king cannot attend a non-conformist place of worship, but he can go to a Sunday concert."

This remark called forth cries of "shame," and Dr. Parker continued: "If the king, who is the head of the church and defender of the faith, can violate the English Sunday, what can the people do but follow in his steps? I would rather give a great sum in gold than appear to be disloyal, but I cannot be disloyal to Christ and it is better that these things should be said."

SPECIAL LENTEN SERVICES.

Rev. J. Webster Bailey, pastor of Plymouth church, has arranged to hold two Lenten services in the interest of busy men on the afternoons of March 16 and 23, from 4 to 5 o'clock. The topic for his addresses are: 1, "The Religion of Living," and 2, "The Living of Religion." Men of all sorts and conditions are invited to attend these meetings. Some of the best instrumental and vocal talent in the city has been secured for these services.

GEORGE D. CRANE BETTER.

George D. Crane, whose sudden and critical illness from heart failure was mentioned in The Sentinel last evening, is much improved today and the danger point is believed to be past. Mr. Crane is resting easily today and his physician is of the opinion that the patient will be able to be about again before long.

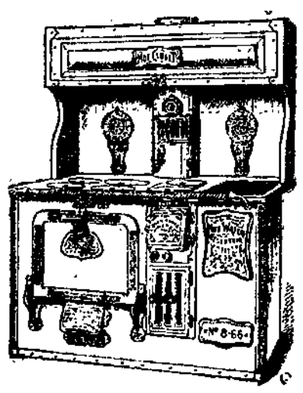
OUR PACE SETTER....



A range we are particularly proud of is our BORN—made of true steel—economically—their durability surpasses anything in the stove line. A BORN Steel Range doesn't take more than a reasonable amount of fuel to run it, and it has an oven to bake to your husband's taste—yes, ready to bake ten minutes after starting fire. The entire range, including the reservoir, heats quickly. There seems to be no use in trying to build one better, as the Born leaves nothing to be desired. No kitchen is complete without one and it doesn't cost much to possess. With all its good qualities this queen of ranges costs you only $35.00 with reservoir and $30.00 without.

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

Eternal vigilance is the price of a beautiful complexion when such remedies are relied on.

Mr. H. T. Shobe, 2704 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disfiguring eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. S., and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old, and not a sign of the embarrassing disease has ever returned."

S. S. S. is a positive, unfailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes bad complexions.

SSS purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

A FOOT CRUSHED

PHILIP HABIG FALLS BENEATH CAR WHEELS.

WAS RIDING TO HIS WORK

ACCIDENT HAPPENED NEAR COTTAGE STREET.

FOUNDRY WORKMAN IS BACK

FOUND STRIKE IN PROGRESS AT BELOIT FOUNDRY.

Philip H. Habig, sixteen years old and the son of August Habig, of 296 Buchanan street, fell in alighting from a gondola car in Pennsylvania freight train No. 329 at a point 1,500 feet west of Cottage street, at 6:15 o'clock this morning, and had his left foot crushed beneath the wheels. Conductor U. G. Dragoo, who had charge of the train, witnessed the lad's fall and he stopped his train, picked the unfortunate boy up and took him to Calhoun street, where he was placed in the city ambulance and taken to St. Joseph hospital. There Dr. Stemen attended the sufferer, amputating all the toes but the great one and taking off a portion of the outer side of the left foot. The lad also sustained some cuts and bruises on the head, the most serious being above the right eye, where there is a gash about two inches long. Philip has been employed at the Wayne Knitting mills for some time and he was en route to that factory when he met with the accident. As he reached the Hanna street crossing the train came along at a slow speed and Philip got aboard one of the cars. He carried a lunch basket and in getting down upon the side of the car preparatory to jumping off west of Cottage street, the basket slipped from his hand. He made a grab for it and this caused him to loose his hold on the car and he fell. The spot where the accident occurred is not greatly frequented at that hour of the day and it was very fortunate for the lad that the trainmen witnessed his fall. Otherwise he might have lain there an hour or two before being discovered. Dr. Stemen believes the lad will get well, the injuries on his head not being of a serious character.

WRECK CAR HEADQUARTERS.

The Wabash company has found it advisable to make this city headquarters for one of its wreck cars and crew and the car that had been stationed at Lafayette was brought here yesterday and now stands on one of the spur tracks at the carpenter shops. O. L. Riggle, an experienced derrick car manager, also arrived in the city last night and is now looking for a house with a view of moving his family here from Peru.

TRANSFERING ENGINES.

The new engines of the Nickel Plate have "got their bearings" and are now doing good service on the Fourth district, taking the places of twelve class I and class J engines. The latter have been transferred to the Third district and in turn will release some lighter engines, which will be used elsewhere. The engines transferred are Nos. 89, 90, 94, 95, 96, 97, 98, 101, 102, 103, 104 and 105. Class I engines 91 and 92, which have been equipped for fast freight and passenger service, as necessity may require, will remain on the Fourth district.

TO ENTERTAIN GRAND OFFICER

Friendship lodge No. 70, International Association of Machinists, will have as a guest Tuesday one of the grand officers, George Mulberry, of Chicago, and it is proposed to give him a reception at the hall on that evening. The lodge will hold a special meeting this evening to arrange for the reception and it is the wish of the local officers that every member who can do so will be in attendance. Mr. Mulberry is the grand organizer of the international association.

GLAD TO GET BACK.

William Brinkman and thirteen others, mostly from the Bass foundry, left this city less than two weeks ago for Beloit, Wis., with the intention of working in the foundry of the Fairbanks & Morris company. They were furnished with transportation and their expenses en route were defrayed by the Beloit foundry people. and the men figured that even if they found matters not to their liking in Wisconsin, they would not "be out much" if they did not stay there. When they arrived at Beloit they found the moulders and helpers on a strike and the Fort Wayne party refused to go to work until the labor difficulties were adjusted. William Brinkman immediately returned to Fort Wayne and this morning resumed his old place in Foreman Pliett's department at the Bass foundry. From him a Sentinel reporter learned that the other members of the party remained in Beloit, the foundry company promising to pay their board in the meantime and to give them employment as soon as the strike ends. From this it is believed that the foundry people intend to dismiss a portion at least of the strikers and to fill their places from the ranks of the newcomers. Mr. Brinkman is reticent concerning the situation at Beloit, but in reply to the inquiry "Is Beloit a better place for laborers than Fort Wayne?" he smiled as he said: "Fort Wayne and the Bass foundry are good enough for me and I think I will remain here." The Sentinel predicts the return of Mr. Brinkman's travelling companions and only hopes that the men will be as successful in finding employment with their old employers as has Mr. Brinkman. Mr. Brinkman's experience is only a repetition of that of hundreds of others who left Fort Wayne under similar circumstances. Let this be a lesson to others who may have a change under consideration. The Sentinel believes there is no better labor market than Fort Wayne, all things considered. Wages may be a little higher some places, but it will be found that the cost of living is also greater and this more than offsets the increased earnings.

CHANGES ON THE C., H. & D.

Some changes in the passenger department of the Cincinnati, Hamilton and Dayton road will take place March 15. Concerning this matter the Enquirer says: "H. J. Sugru, who is now chief rate clerk, goes to Findlay as traveling passenger agent. He will be succeeded here by T. H. Gurney, who is division clerk. A. Foelger will be promoted to succeed Mr. Gurney and Albert Jansing is moved up to succeed Mr. Foelger.

FIREMAN INJURED.

Passenger Fireman J. F. Magers, of the Pittsburg, received an ugly gash in his scalp last night by falling on the coal in the tender of his engine. The engine had cut loose from No. 11 and Mr. Magers had fastened a red lantern on the rear of the tank and was passing back to the cab while the engine was making its way to the coal docks, when he fell with the result mentioned. He will be off duty a few days.

WORTHY MAN PROMOTED.

Charles H. Miller, one of the old employes at the works and an expert in his line, has received just recognition at the hands of Superintendent A. E. Barnes. Mr. Miller is a polisher at the Fort Wayne Electric works and this morning he was appointed foreman of the department where small articles are polished. The announcement was received with pleasure by the factory associates of Mr. Miller, with whom he is a great favorite.

WILL BE A HYBRID.

The Bluffton News claims to have the authority for the statement that the Clover Leaf company is planning to equip the division of the road between Delphos and Frankfort with electric power and running passenger cars over the line at short intervals the same as other interurban lines. The move, it is said, is being considered with a view to cutting off expected competition from other lines that may be built and it is believed that if the step can be taken before other companies get into the field it will effectually shut out such competition. The division can be equipped for electric power much cheaper than a new road can be built. The division is 125 miles long and all that would be necessary would be to string poles and wire, erect the power house and put on the cars. The roadbed, bridges and track are there. The line would connect the oil fields of Ohio and Indiana and be located in territory where the Clover Leaf's local travel is best. The new equipment would not interfere with the steam trains now in use and freight and through passenger traffic would be handled as at present."

CHANGE OF MEETING TIME.

The Railway and Shopmen's Protective association has some important matters to discuss that require immediate attention and the meeting appoined for Sunday, March 16, will be held next Sunday afternoon instead.

PENNSYLVANIA PAY CAR.

Notices of the coming of the Pennsylvania pay car were posted at the shops yesterday. The car will arrive here on Tuesday evening, March 18, and will leave on Thursday morning, March 20. Wednesday will be pay day proper at the shops.

FACTORY INSPECTOR HERE.

Thomas Williamson, deputy state factory inspector, is in the city on his regular inspection tour and was a caller at the Pittsburg shops yesterday. Mr. Williamson is an old friend of Assistant Foreman John Leach, of the boiler shop, and they had an "old time" chat yesterday. Both are officials in the Order of St. George and have met at the conventions of the order for several years past.

INDUSTRIAL NOTES.

Pittsburg Engineer W. Kahoe is sick and off duty.

W. F. Simmons has taken a position in the Wabash shops.

Pittsburg Firemen G. Reilley, who had been sick, reported for work this morning.

A. S. Mead, fuel inspector for the eastern division of the Wabash, was in the city yesterday.

Conductor Bert Cowdrey, who had been sick, reported for work on the Nickel Plate yesterday.

Patrick Lanigan has been temporarily transferred from the shop gate to the Pennsylvania crossing gates at Calhoun street.

President M. D. Woodford, of the Cincinnati, Hamilton and Dayton, and his family, have gone to Florida to remain until April 1.

W. Fetters and H. W. Ireland are sick and Fred Schultz is off duty on acount of the sickness of his wife. They are Pittsburg shopmen.

Round House Machinist Edward Tierney, of the Pittsburg, reported for work this morning, after a short absence on account of sickness.

H. W. Bradtmiller has resigned as night clerk at the Pittsburg round house and C. C. Bohen, night caller, has been advanced to that position.

Work on reducing grades on the Panhandle's Chicago division at Marion and laying a second track on that division will be resumed on Monday.

Hershall Mauk, tinner at the Pittsburg shops, is off duty on account of the sickness of his father, F. M. Mauk, the veteran Pennsylvania passenger conductor.

Motive Power Superintendent D. F. Crawford, Chief Clerk Frank Reed and Chief Car Inspector W. W. Todd left last night for Pittsburg on business for the Pennsylvania company.

Chief Car Inspector E. J. Preston, of the Wabash, has added the name of John Connelly to his list of car inspectors, the new man formerly being in the employ of the Pennsylvania.

Stuart Behret returned home after a trip out in the interest of the Fort Wayne Electric company. Ed Hughes, a machinist, who was sick, resumed his duties at the works this morning.

Harry McClure, who has been temporarily employed in the clerical force at the Wabash shops, will return to his old position tomorrow, that of apprentice in the mechanical department.

The engine output at the back shops of the Pittsburg for the present week was as follows: Nos. 57, 286, 134, 246, 332 and 100, the latter being one of the large class E-2 passenger locomotives.

Indianapolis Journal: "The Panhandle having received a number of new engines is returning those borrowed from one of the Duluth roads and others from the Pittsburg, Fort Wayne and Chicago."

W. D. Lenenger, a Nickel Plate brakeman, is a witness in a law suit at Newark, Ohio, wherein the Toledo and Ohio Central road is the plaintiff. Mr. Lenenger formerly worked on that road.

After a two weeks' service at the Pittsburg boiler shop, William Callihan has severed his connection with that establishment to take employment elsewhere. He does not contemplate removal from the city.

P. A. Randall left yesterday upon an eastern tour in the interest of Smith & Randall, lumber dealers. Mr. Randall will visit Philadelphia, New York, Boston and other cities, where customers of the firm reside.

The Guerin bill, which provides for the settlement of railway crossing disputes in the common pleas court, when the railway companies can not come to a settlement, has passed the Ohio house of representatives.

Mr. and Mrs. James Kilpatrick left this morning for Detroit, where the lady will consult a specialist concerning a malady that has afflicted her for several years. Mr. Kilpatrick recently resigned a position with the Wabash.

Michael Egan has brought suit against the Nickel Plate, demanding $20,000 damages for alleged permanent disability, the result of blood poisoning. Egan, who was an engine hostler at Bellevue, had his hand injured while working for the company. The suit has been brought in the Huron county courts.

Yesterday the Fort Wayne Electric works sent a carload of machinery to New Berne, N. C., where the company will install a municipal plant. The consignment included a 1,500-light incandesent and a 100-light arc dynamo and the necessary equipment material; also sixty-two of Mr. Wood's new style lamps. Tomorrow the company will send out several other machines, included being a big "booster" for an electric line in Mexico.

Some capitalists at Kokomo and the Lake Erie and Western railway have organized a company for the construction of a "belt railway" to open a number of factory sites. The company will build one and three-quarter miles of track and will endeavor to locate factories along the line.

The Lima Locomotive works has let the contract for the construction of new shops at Lima, Ohio. Moen Brothers were the successful bidders. It is the intention of the locomotive company to place the finest and most modern machinery in the shops and make them up-to-date in every particular.

The Peru Journal urges Peru citizens to purchase the Chili road, recently a part of the Eel River branch of the Wabash, and make an electric line of it. The property is nine miles long and it belongs to the Wabash company. As its owner has no apparent use for it, it is presumed that the property is for sale.

The map attached to the Wabash folder for Pittsburg, gives all the lines in the Gould system, making up a grand total of 15,000 miles. The general passenger department has issued a very handsome brochure calling attention, with illustrations and reading matter, to the early completion of the line into Pittsburg. It is in the form of a greeting to the people of Pittsburg. The new passenger and freight office has been opened in Pittsburg at 320 Fifth avenue.

VARICOCELE!

Have You Got It?

We Will Cure You In Five Days.

Do not waste time taking medicine, applying local applications, electric belts or suspensories. You burn your money. That kind of treatment will never cure you. Never a day passes without a number call at our office suffering from this terrible malady, Varicocele, telling us their misfortune of falling in hands of quacks; been treating with them from one to five years—spending a small fortune and now worse than before taking their treatment.

GENTLEMEN, WAKE UP!

The pleasures of life are slipping through your fingers. Come to us and be cured.

It matters not by whom you have been treated, how long a sufferer or how bad a Varicocele you have; we will cure you just as sure as 2 and 2 are 4. If we don't, not one cent will it cost you. Our treatment for Varicocele is painless, no cutting, no blood and will not stop you a day from your daily work. If you are a sufferer from Varicocele, call at our office and we will gladly explain our method of curing this malady. This will cost you nothing and we will explain to your own satisfaction that WE CURE VARICOCELE TO STAY CURED.

$500.00 FORFEIT

1st. For any case of Varicocele we accept and fail to cure.

Yama=mai

Pronounced yah-mah-my.

When silken linings first were worn
Dame Fashion heaved a weary sigh;
How could this new expense be borne?
Just then there was no YAMA-MAI.

But soon man's active brain produced
A silken cloth with luster high;
The price of silk he much reduced
By making far-famed YAMA-MIA.

Now, when Dame Fashion goes to shop,
On silken linings bent to buy,
Her steps are always sure to stop
Where silk is sold called YAMA-MIA.

See that the name YAMA-MAI is on the selvedge of every yard. Something sold to you, which is said to be "just as good," will not make your new gown the success it ought to be. A glance at the name on the selvedge protects you against imitation. THAT'S WHY we put it there.

SOLD BY AMERICA'S GREATEST MERCHANTS.
Known to the trade as the SWIFT SELLING SILK.

CRITICISES KING EDWARD

REV. JOSEPH PARKER USES VIGOROUS LANGUAGE.

Calls His Majesty Publicly to Time for Brewing Beer and Attending Sunday Concert.

London, March 7.—There was a striking scene in the City temple yesterday when, during the course of his sermon, Rev. Joseph Parker, D. D., the minister, administered a pointed rebuke to King Edward, which was loudly applauded by the congregation. Having alluded to public houses as "trap doors of hell," Dr. Parker referred to the king's recent brewing of beer while visiting Lord Burton.

"Pray for me," said the divine, "that I may speak delicately, loyally. If the king brews beer, what can he wrong in the subject drinking? What the king does is likely to be imitated by others. His majesty is more than a man and must regard all questions from a kingly point of view. If the king goes to a Sunday concert, as he did recently, he deals a deadly blow to the Englishman's Sunday. The king cannot attend a non-conformist place of worship, but he can go to a Sunday concert."

This remark called forth cries of "shame," and Dr. Parker continued: "If the king, who is the head of the church and defender of the faith, can violate the English Sunday, what can the people do but follow in his steps? I would rather give a great sum in gold than appear to be disloyal, but I cannot be disloyal to Christ and it is better that these things should be said."

SPECIAL LENTEN SERVICES.

Rev. J. Webster Bailey, pastor of Plymouth church, has arranged to hold two Lenten services in the interest of busy men on the afternoons of March 16 and 23, from 4 to 5 o'clock. The topic for his addresses are: 1, "The Religion of Living," and 2, "The Living of Religion." Men of all sorts and conditions are invited to attend these meetings. Some of the best instrumental and vocal talent in the city has been secured for these services.

GEORGE D. CRANE BETTER.

George D. Crane, whose sudden and critical illness from heart failure was mentioned in The Sentinel last evening, is much improved today and the danger point is believed to be past. Mr. Crane is resting easily today and his physician is of the opinion that the patient will be able to be about again before long.

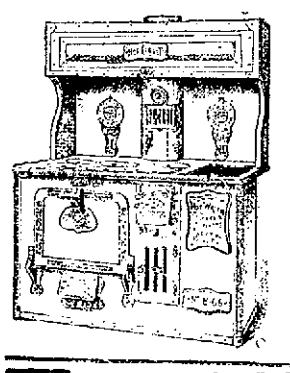
"It's a good thing" SLAVLY'S have it.

OUR PACE SETTER....



A range we are particularly proud of is our BORN—made of true steel—economically—their durability surpasses anything in the stove line. A BORN Steel Range doesn't take more than a reasonable amount of fuel to run it, and it has an oven to bake to your husband's taste—yes, ready to bake ten minutes after starting fire. The entire range, including the reservoir, heats quickly. There seems to be no use in trying to build one better, as the Born leaves nothing to be desired. No kitchen is complete without one and it doesn't cost much to possess. With all its good qualities this queen of ranges costs you only $35.00 with reservoir and $30.00 without.
